FAQ
Jargon Guide

The benefit structure for the 2024 benefit year will continue to offer a choice of three Plans, catering to our various members' needs.

Before the new benefit year starts on 1 January 2024, you will need to decide whether your current Plan (if you are already a member) still meets your medical needs or whether you should consider switching to a more suitable Plan.

Please note that option changes can only be processed once a year, at the beginning of each benefit year.

This section offers a quick and easy comparison of the three Plans to help you determine which Plan will work best for you. When making this important decision, you will basically have to weigh up the benefits and contributions of the various Plans with your needs – so please read this member guide carefully to get all the information you need before making your decision.

If you have any questions after reading this guide, or need help in making your choice, please contact your HR Consultant, or Medscheme on 0860 101 103 if you are a pensioner.

Can I have a quick overview of the Plans?

HOSPITAL CORE PLAN

This is a "basic" hospital benefit option providing comprehensive cover for major medical events at scheme rates. It is targeted at those looking for major medical cover, but willing to cover the cost of any shortfall between fees charged and the medical scheme rate. Chronic cover is limited to the Prescribed Minimum Benefits (PMBs).

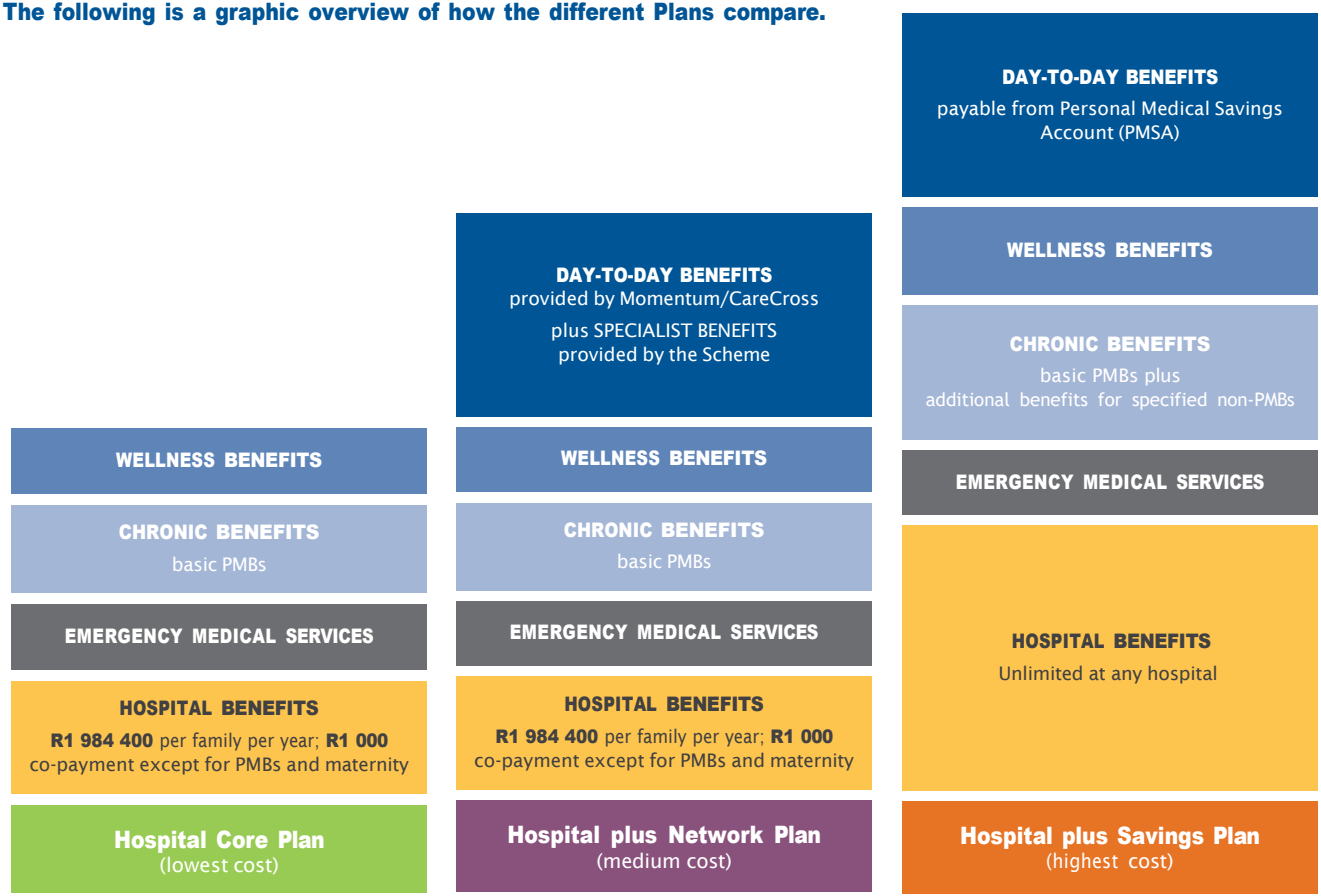
HOSPITAL PLUS NETWORK PLAN

This plan provides essential hospital, chronic and routine cover at a low cost by requiring members to use Designated Service Providers (DSPs) for the full spectrum of cover to access care. Chronic cover is limited to the Prescribed Minimum Benefits (PMBs).

HOSPITAL PLUS SAVINGS PLAN

This is the most comprehensive plan on Horizon, offering unlimited hospital cover and additional chronic medicine cover for non-PMB conditions. Routine cover is offered via a medical savings account, allowing members choice in how to use their benefits. This Plan also enjoys enhanced maternity benefits.

The following is a graphic overview of how the different Plans compare.



Summary of benefits and contributions

	Hospital Core Plan	Hospital plus Network Plan	Hospital plus Savings Plan
DAY-TO-DAY BENEFITS *(THE FOLLOWING IS A SUMMARY ONLY – PLEASE SEE RELEVANT CHAPTER FOR MORE INFORMATION.)*			
General	No benefit.	Services obtainable from the Momentum/ CareCross Network of Primary care providers.	Paid from available savings in Personal Medical Savings Account. In addition, a contraceptive benefit for female beneficiaries, limited to **R2 400** per beneficiary per year.
Dentistry		Basic dentistry at a Network Dentist subject to Network protocols.	
Optical		One eye test every two years and one pair of standard or bifocal lenses, as well as standard frames to the value of **R236** every two years at a Network Optometrist, OR contact lenses to the value of **R617** per beneficiary.	
Acute Medicine		Momentum/CareCross provider, formulary applies. In addition, the Scheme offers a contraceptive benefit for female beneficiaries, limited to **R2 400** per beneficiary per year.	
GP benefit		Unlimited medically necessary consultations at a Momentum/CareCross General Practitioner (GP). 3 emergency out-of-network visits to a max of **R1 200** per family per year.	
Radiology		Only as requested by a Momentum/CareCross GP only (not specialist), subject to Network protocols and according to an approved list.	
Pathology		Basic pathology tests as requested by a Momentum/CareCross GP only, subject to Network protocols and according to an approved list.	

	Hospital Core Plan	Hospital plus Network Plan	Hospital plus Savings Plan
External prosthesis including artificial limbs and long leg calipers			Limited to **R16 300** per beneficiary per year.
SPECIALIST BENEFITS *(THE FOLLOWING IS A SUMMARY ONLY – PLEASE SEE RELEVANT CHAPTER FOR MORE INFORMATION.)*			
Specialist benefit		**R1 590** per family per year; any specialist. Managed by the Scheme.	Paid from available savings in Personal Medical Savings Account
MATERNITY BENEFITS *(THE FOLLOWING IS A SUMMARY ONLY – PLEASE SEE RELEVANT CHAPTER FOR MORE INFORMATION.)*			
A range of maternity benefits covering (depending on your Plan) elements such as access to the new Horizon Maternity Programme, antenatal classes, consultations with GPs or specialists, ultrasound scans, pathology tests, hiring of water baths and more.			
WELLNESS BENEFITS *(THE FOLLOWING IS A SUMMARY ONLY – PLEASE SEE RELEVANT CHAPTER FOR MORE INFORMATION.)*			
	R2 115 per family per year.	**R2 115** per family per year.	**R5 470** per family per year.
	This total benefit limit can be applied to the following tests and vaccines: **Pharmacy based tests:** Blood glucose, Lipogram (finger-prick test) **Pharmacy based vaccines:** Flu vaccine, HPV vaccine, Pneumococcal vaccine, Pertussis vaccine, Child immunisations **Non-pharmacy based tests:** Cervical Cancer Screening, Prostate Surface Antigen, Mammogram		Members on the Hospital plus Savings Plan can also use their Wellness Benefit limit to claim for the following: • Dietician consultation • Biokineticist consultation • Occupational therapist consultation • Speech therapist consultation • GoSmokeFree Programme at participating Pharmacies

	Hospital Core Plan	Hospital plus Network Plan	Hospital plus Savings Plan
CHRONIC BENEFITS *(THE FOLLOWING IS A SUMMARY ONLY – PLEASE SEE RELEVANT CHAPTER FOR MORE INFORMATION.)*			
Medicine	Prescribed Minimum Benefit (PMB) conditions at 100 % of cost from participating pharmacies. Restrictive formulary applies.	Prescribed Minimum Benefit (PMB) conditions at 100% of cost from Network. Formulary applies.	Prescribed Minimum Benefit (PMB) conditions + a number of additional conditions at 100% of cost from participating pharmacies. Comprehensive formulary applies. Cover for additional specified conditions limited to **R15 240** per beneficiary per year.
MEDICAL EMERGENCY BENEFITS *(THE FOLLOWING IS A SUMMARY ONLY – PLEASE SEE RELEVANT CHAPTER FOR MORE INFORMATION.)*			
ER24	100% of tariff as agreed to with the contracted provider, subject to the use of the Scheme's preferred provider's services.	100% of tariff as agreed to with the contracted provider, subject to the use of the Scheme's preferred provider's services.	100% of tariff as agreed to with the contracted provider, subject to the use of the Scheme's preferred provider's services. If the preferred provider is not used, cost will be covered from the available medical savings account balance.
HOSPITAL BENEFITS *(THE FOLLOWING IS A SUMMARY ONLY – PLEASE SEE RELEVANT CHAPTER FOR MORE INFORMATION.)*			
Hospital Cover	Subject to overall annual limit of **R1 984 400** per family per year; any hospital. **R1 000** co-payment for non-PMB admissions.	Subject to overall annual limit of **R1 984 400** per family per year; any hospital. **R1 000** co-payment for non-PMB admissions.	Unlimited cover at any hospital.
Rates	100% of Medical Scheme Rate (MSR).	100% of Medical Scheme Rate (MSR).	100% of Medical Scheme Rate (MSR).

What are the monthly contribution rates?

	Hospital Core Plan	Hospital plus Network Plan	Hospital plus Savings Plan*
MONTHLY CONTRIBUTIONS			
Principal member	R1 017	R1 788	R2 934
Additional adult/ Spouse/ Life partner	R815	R1 430	R2 346
Child	R358	R625	R1 026

***The total contributions for the Hospital plus Savings Plan are made up as follows:**

	Principal member	Additional adult dependant/ spouse/ life partner	Child dependant
Risk	R2 567	R2 053	R898
Allocation to PMSA	R367	R293	R128
Total	**R2 934**	**R2 346**	**R1 026**

How should I decide which Plan is best for me?

- Review the benefits offered by each of the three Plans to make sure that you choose the Plan most suited to your medical needs.
- Review your past medical claims history (in other words, what your medical expenses were during the previous benefit year).
- Estimate your anticipated medical expenses during the coming year.
- Consider any medical procedures that are planned for the next benefit year.
- Think about the number of dependants you have and whether they may require chronic medicine and treatment.
- Consider whether you have an existing chronic ailment that may require chronic medicine and treatment.
- Verify the monthly contribution rates of each Plan to make sure that you can afford the Plan you select. At the same time, there is no point in choosing a cheaper Plan if that Plan doesn't provide you with enough benefits and requires you to make regular co-payments.

How do I make changes to my membership details?

All changes must be done via your HR department, with supporting documentation (where relevant) accompanying your form. Refer to the Membership chapter for more information on supporting documentation required in various circumstances.

How to save money

and make the most of your benefits

This is how you can save the Scheme and yourself money:

Use the Scheme's pharmacy network to avoid unnecessary co-payments.

If you are on the Hospital Plus Network Plan, use a Momentum/CareCross General Practitioner (GP) to avoid unnecessary co-payments.

Consider paying in cash and then claiming back to get discounts (unless you are registered on the Chronic Medicine Management programme).

Get a quote from the doctor before undergoing any procedure and check with the Contact Centre how much will be paid. Negotiate with your doctor to charge (at least closer to) the amount covered by the Scheme.

Ask for generic medicine whenever possible.

Think twice about undergoing elective surgery procedures.

If your doctor recommends a particular line of treatment and you feel uncertain about whether it is necessary, ask for a second opinion.

If an operation is scheduled for the afternoon or evening, arrange for hospital admission after 12pm.

Maintain a healthy lifestyle, as prevention is always the better option.

Make healthier choices to avoid or better manage lifestyle-related chronic conditions.

Use the screening tests and vaccines offered as part of your Wellness Benefits to identify potential lifestyle diseases early.

How to register on the Member Portal

REGISTRATION:

1. Access the Horizon Member Portal via the following link: https://HorizonMembers.medscheme.co.za
2. The main member is able to register by clicking on **'Register Main Member'**.
3. The dependant is able to register (based on main member permissions) by clicking on **'Register Dependant'**.
4. Enter the **membership number**.
5. Click on **'I agree to the Horizon Medical Scheme'** check box.
6. To view the terms and conditions, click on **' Terms and Conditions'**.
7. Click on **'Next'**. The user will receive a **OTP** (One Time Pin) as an SMS on their cell phone.
8. Enter the OTP and click on **'Confirm OTP'**.
9. Complete the registration form and click on **'FINISH'**. When choosing and typing in a username and password, remember that the password is case sensitive.
10. **IMPORTANT:** If your cell phone number or email address has changed recently please update our records for a smooth registration process, as the details you use must correspond with our records. You may update your details by phoning 0860 101 103, emailing horizon@medscheme.co.za or downloading the Horizon Chat on your smartphone and sending the details to us via live chat.
11. Once the process has successfully been completed, a screen will appear confirming your registration.

SIGN IN:

1. Access the Horizon Member Portal via the following link: **https://HorizonMembers.medscheme.co.za**
2. Enter a valid 'Email Address' and 'Password'
3. Click on 'Sign in'

IN THIS SECTION

- Why have a medical scheme?
- How can this Member Guide help me?
- What are my responsibilities as a member?
- What if I suspect fraudulent activity, waste or even abuse within the Scheme?
- What other general information should I keep in mind in terms of my benefits?

Why have a medical scheme?

You never know when you or one of your family members may need medical care, which could cost a substantial amount. Fortunately, as a member of the Horizon Medical Scheme, you can enjoy peace of mind knowing that you and your family are protected by the benefits available on the various Plans offered by your medical scheme.

How can this Member Guide help me?

This guide has been written to give you all the information on what benefits you are entitled to as a member, irrespective of the Plan you choose. It also contains information on the various Plans, to help you choose the one that suits you best, plus information on claims processes, chronic medicine and more. Use the side tabs and colour coding to find the information you need, when you need it.

What are my responsibilities as a member?

- Use your benefits responsibly.
- Understand how the Scheme and specific Plans work by reading this Member Guide.
- Keep the Scheme up to date on any changes to your membership details.
- Check all accounts from service providers as well as your statements and claims advices from the Scheme to make sure that all your details are correct and that your claims have been processed correctly. Ask as many questions as you need to feel comfortable with a query about services offered.
- Inform the Scheme before you are admitted to hospital.
- File all your documentation regarding the Scheme so that you can refer to it if necessary.
- Keep your membership card in a safe place so that no-one else can use it fraudulently.
- Contact HR or your Payroll department if you want to make any changes to your dependants or other details on record with the Scheme.

What if I suspect fraudulent activity, waste or even abuse within the Scheme?

Unnecessary and fraudulent expenses are funded by you, the member, through increased contributions. You can contribute towards the fight against fraud by carefully and regularly checking your claims transactions and making sure that you have not been involved in a fraud scam without your knowledge.

If you suspect that a service provider, colleague or any other person or organisation may be engaged in fraudulent activities against the Scheme, please report it immediately. You can find practical examples of fraud, plus details on how to report fraud, in the FAQ section at the end of this guide.

What other general information should I keep in mind in terms of my benefits?

- Major Medical Benefits include all services at public and private hospitals.
- Formulary and supplier networks are subject to change from time to time. The latest information is available on request from Medscheme or the Momentum/CareCross Network.
- The chronic medicine benefits on the Hospital plus Savings Plan are covered according to the Medscheme Chronic Medicine Management formulary.
- The Medical Scheme Rate (MSR) in respect of medicine is the SEP (Single Exit Price) and the dispensing fee as per the Medicine and Related Substances regulations.
- All benefits are subject to PMB legislation where applicable.

HOSPITAL CORE PLAN

Because this is a low-cost plan that is focused more on offering you and your family hospital coverage, day-to-day benefits are limited only to PMB (or related) conditions:

Day-to-day benefits	
Primary services obtained from preferred provider	No benefit
Primary services not obtained from preferred provider	No benefit
Specialists (including radiology & pathology, excluding MRI & CAT scans)	No benefit
Specialised dentistry	No benefit
MRI & CAT scans	No benefit
Chronic medicine	100% of cost for PMB-related conditions, subject to formulary
Surgical and medical appliances	No benefit
Pathology	No benefit
Medical auxiliaries / other	No benefit

HOSPITAL PLUS NETWORK PLAN

Horizon offers members on the Hospital plus Network Plan access to primary care day-to-day benefits via the Momentum/CareCross network of General Practitioners, Dentists and Optometrists. This benefit includes General Practitioner (GP) consultations, radiology and pathology requested by the Momentum/CareCross GP according to an approved tariff list, acute medicine according to the Network Acute Medicine formulary, and as scripted or dispensed by your Momentum/CareCross GP, chronic medicines according to the Network chronic medicine formulary on approval, basic dental benefits from a Network Dentist and optical benefits from a Network Optometrist.

This claim will be paid directly to the contracted provider if the tests are on the approved tariff list or formulary. This means that there is no need for you to get involved with claim submissions.

The service provided ensures that your doctor is able to control and prescribe treatments that are medically necessary in order for you to stay healthy.

The services also extend to basic conservative dentistry, optometry, medicines dispensed or prescribed by the Momentum/CareCross General Practitioner, according to the Acute or Chronic Medicine formulary and specified radiology and pathology tests according to an approved tariff list.

To obtain access to this range of benefits, you need to select the Hospital plus Network Plan.

You can obtain a list of Momentum/CareCross General Practitioners by calling 0860 103 491 or emailing horizon@carecross.co.za. The list of Momentum/CareCross General Practitioners can also be found on the CareCross website at www.carecross.co.za.

Should the provider you have chosen leave the Network, you will be contacted so that you may choose an alternative Network provider in your area to manage your healthcare needs.

Primary services obtained from preferred provider	As per the Network schedule: • Unlimited medically necessary consultations at a Momentum/CareCross GP. • Basic Primary Care services. • Minor Trauma Treatment: – Stitching of wounds, – Limb casts, – Removal of foreign body, – Clamp Circumcision, – Excision and repair, and – Drainage of subcutaneous abscess and avulsion of nail. • Pre- and Postnatal Care: – Supervision of uncomplicated pregnancy up to Week 20. – Including one 2D sonar scan in the first trimester.
Acute medicines	As dispensed or scripted by the chosen Momentum/CareCross GP subject to the Network Acute Formulary. Medicines obtainable from a Momentum/CareCross (dispensing) or a Mediscor enabled pharmacy (scripting). In addition, on all Plans except Hospital Core Plan, the Scheme offers a contraceptive benefit for female beneficiaries, limited to **R2 400** per beneficiary per year.
Primary care dentistry	Subject to Network protocols, use of a Network dentist and according to a list of approved dental codes: • Consultations, primary extractions, fillings, scaling and polishing. • Emergency/unplanned treatment of pain. No benefit for root canal treatment, crowns, dentures and other advanced dentistry.
Specialised dentistry	No benefit.

Radiology	Only on request from a Momentum/CareCross General Practitioner. If requested by a Medical Specialist, the claim will be rejected as this is not covered by the Scheme.
Pathology	Covers a list of basic blood tests. Only on request from a Momentum/CareCross General Practitioner. If requested by a Medical Specialist, the claim will be rejected as this is not covered by the Scheme.
Optometry	One eye test every two years and one pair of standard or bifocal lenses, as well as standard frames to the value of **R236** every two years at a Network Optometrist, OR contact lenses to the value of **R617** per beneficiary.
MRI & CAT scans	No benefit except for PMBs. Managed by the Scheme.
Chronic medicine	• 100% of Cost for 26 PMB and other PMB related conditions. Network providers only and formulary applies. • Subject to the Network Chronic Formulary (CDL conditions plus other Scheme-approved chronic conditions). • On registration and approval from the Network's clinical division. • Medicine to be supplied by Network providers as arranged with the beneficiary or provider.
Surgical and medical appliances	No benefit except for PMBs. Managed by the Scheme.
Medical auxiliaries / other	No benefit.
Out of network / emergency visits	Limited to 3 genuine after-hour emergency General Practitioner consultations per family per year. The member will be required to pay for these services and submit the claim to Momentum/CareCross for reimbursement to a maximum of **R1 200** per family per year.

HOSPITAL PLUS SAVINGS PLAN

Members who choose the Hospital plus Savings Plan will automatically contribute to a savings account at a rate of 12.5% of their total contribution. The member's contribution will be credited to an account kept by the Scheme in respect of each Member, called a Personal Medical Savings Account (PMSA). Day-to-day claims for non-PMBs for members on the Hospital plus Savings Plan will be paid from the Personal Medical Savings Account at 100% of cost, subject to the available balance.

Hospital plus Savings Plan - Annual Savings

From the beginning of each benefit year, the personal medical savings account is credited with a percentage of a member's contribution, as determined in the Scheme's Rules. This savings fund is made available prospectively to a member; in other words, the full year's savings funds are made available at the beginning of each benefit year.

Principal member	Additional adult dependant/ spouse/ life partner	Child dependant
R4 404	R3 516	R1 536

More about the PMSA

The funds in the PMSA will be for the exclusive use of the member and his/her beneficiaries while he/she is a member of the Scheme. Members may draw on any accumulated balance in the PMSA to settle the difference between the amount charged and the benefit paid. On the member's request, the PMSA can also be used to cover any other shortfall which may occur, or to pay for any hospital levy or excess. The PMSA will be credited with interest at the rate determined by the Board. The limit for benefits from the PMSA will be the credit balance, if any, in the PMSA for a member at the time of receipt of a claim.

In the event of a member passing away, the amount (if any) standing to his credit in his PMSA will either be paid to his estate or, in the case of his beneficiaries becoming continuation members, this amount will be paid into their PMSA. Such payment will be made within five complete months after the death of the member.

Members retiring as employees of the Employer, but remaining as continuation members of the Scheme, will not be entitled to withdraw any credit remaining in their PMSA.

On transfer to another Plan of the Scheme that does not provide for such an account, any balance in the PMSA will be refunded to the member, 5 months after such transfer and subject to applicable laws.

Should a member terminate membership of the Scheme and not be admitted as a member of another medical scheme or be admitted to membership of another medical scheme that does not provide for a PMSA, the balance due to the member will be refunded to the member 5 months after termination of membership, and subject to applicable laws. Should a member be admitted to membership of another medical scheme that provides for a PMSA, the balance due to the member will be transferred to such scheme within 5 months after termination of membership.

It is the responsibility of the member to communicate the banking details of the new scheme, or changes to their own banking details, to the Scheme.

FAQ
Jargon Guide

What is a specialist?

A medical specialist is a doctor who has completed advanced education and clinical training in a specific area of medicine (their specialty area), such as cardiology, neurology, and so on.

Providers of auxiliary health services, such as audiologists, physiotherapists, dietitians and chiropractors are NOT specialists and such claims will not qualify under this benefit.

Does the Scheme have a specific network of specialists that I should use?

The Scheme does not have a specific network of specialists - a claim from any specialist will be covered if you have available benefit.

What cover is available for consultations with specialists?

Members who belong to the **Hospital plus Network Plan** have cover for consultations with specialists, up to a limit of **R1 590** per family per benefit year at MSR only.

You do not have to be referred by your treating CareCross GP for the claim to be considered for payment (subject to your available benefit limit), but it is generally advisable to have a reference letter from your treating doctor so that the specialist will have appropriate information for your further treatment.

Please remember that the specialist might charge higher rates. It is therefore in your interest to confirm the rates and the benefit that is available to be paid.

Members on the **Hospital plus Savings Plan** will have cover for specialist consultations to the extent that they have funds available in their Personal Medical Savings Account.

Members on the **Hospital Core Plan** do not have cover available for specialist consultations, unless the condition being treated is a PMB condition and the treatment requires care by a specialist.

FAQ
Jargon Guide

Why should I go for screening tests?

Getting screening tests is one of the most important things you can do for your health. Screenings are medical tests that check for diseases before there are any symptoms. Screenings can help doctors find diseases early, when the diseases may be easier to treat.

How can the Wellness Benefits help me?

These preventative benefits are available on all Plans and consist of two types of Wellness Benefits: a Pharmacy Wellness Benefit, plus certain tests that can be conducted by a GP, specialist or radiologist (depending on the test).

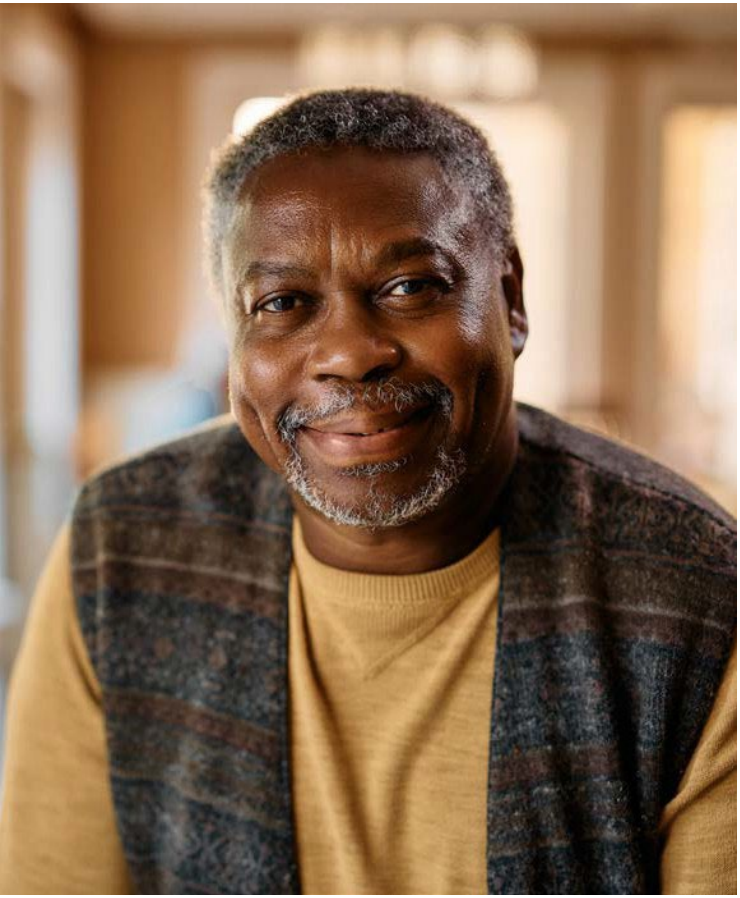
These benefits are separate from your other day-to-day benefits and are not paid from these limits, but they are subject to the use of the correct diagnostic and tariff codes as well as the correct Service Provider (in the case of members on the **Hospital plus Network Plan**, a Network provider must be used).

The aim of this benefit is to encourage members to take care of their health and wellbeing by going for a general health consultation once a year and to keep track of their results.

How much is available under the different Plans in respect of Wellness Benefits?

The total amount that can be claimed for Wellness Benefits is shown in the table below. *This amount can now also be used for one GP consultation per beneficiary per year for any consultation or referral in relation to screening or preventative care tests/ vaccines (subject to the ICD-10 code Z00.0 being submitted with the claim).* This excludes any other consultation fees and related procedural costs.

Hospital Core Plan	Hospital plus Network Plan	Hospital plus Savings Plan
R2 115 per family per year	**R2 115** per family per year	**R5 470** per family per year



What is available under the pharmacy Wellness Benefit?

The Pharmacy Wellness Benefit gives you access to pharmacy clinics, where a qualified nurse will assess your current state of health and give you advice as well as tools on how to improve your health. **Please note that these benefits are only covered from your Wellness Benefits limit if obtained from a pharmacy clinic (or Network provider, in the case of members on the Hospital plus Network Plan).**

At the clinic they can offer the following tests, measurements and services:

VACCINES

- **Flu vaccine** – Limited to 1 vaccination per beneficiary per benefit year, covered at cost or MSR, whichever is the lesser.
- **HPV vaccine** – Limited to one course per female beneficiary between the ages of 9 and 26 years.
- **Pneumococcal vaccine** – Limited to 1 vaccination per beneficiary per year, covered at cost or MSR, whichever is the lesser.
- **Pertussis vaccine** – Limited to 1 vaccine per beneficiary between 7 and 64 years once every 10 years, as well as one vaccine per pregnancy in the third trimester.
- **Child immunisations** (as per Department of Health protocols and including Chicken Pox, Hepatitis A, Pertussis, Meningitis and MMR vaccines) – Limited to children up to the age of 12.

SCREENINGS

- **Blood glucose** – Covered at cost or MSR, whichever is the lesser. Please note that this is a finger-prick test.
- **Lipogram (finger-prick) test** – Covered at cost or MSR, whichever is the lesser. Please note that this is a f inger-prick test.

You can also ask the clinic staff for advice on how to improve your health through basic exercise and healthy eating plans.

What is available under the non-pharmacy Wellness Benefit?

Other wellness benefits available outside a pharmacy are the following:

Papsmear – limited to one test per female beneficiary per benefit year, covered at cost or MSR, whichever is the lesser. This benefit is also available to members on the **Hospital plus Network Plan**, at Network providers.

HPV PCR test – limited to one test per female beneficiary aged 25 years to 65 years, once every every 5 years covered at cost or MSR, whichever is the lesser.

Mammogram – limited to one test every two years per beneficiary.

Prostate Surface Antigen – limited to one test per male beneficiary per benefit year, covered at cost or MSR, whichever is the lesser. This benefit is also available to members on the **Hospital plus Network Plan**, at Network providers.

Faecal occult colorectal test – limited to one test per beneficiary per benefit year.

Members on the Hospital plus Savings Plan can also use their Wellness Benefit limit to claim for the following:

CONSULTATIONS

Dietician consultation

Biokineticist consultation

Occupational therapist consultation

Speech therapist consultation

Limited to one consultation per beneficiary per year, covered at 100% of cost or MSR, whichever is lesser, and subject to the overall Wellness Benefit limit.

PROGRAMMES

GoSmokeFree Programme

Only available to members on the **Hospital Plus Savings** Plan. 100% of cost or MSR, whichever is lesser, and subject to the overall Wellness Benefit limit and using participating pharmacies.

MORE ABOUT THE GOSMOKEFREE PROGRAMME

The GoSmokeFree programme is aimed at helping members who smoke to kick the habit!

Studies show that 70% of smokers would like to give up smoking and 30% go on to attempt to stop each year… yet fewer than 3% successfully quit cold turkey! The GoSmokeFree programme begins with a pre-quit assessment where a smoker's readiness and motivations to stop smoking is determined and a quit date is set, followed by six once-a-week, one-on-one sessions with a Nursing Sister who is trained as a GoSmokeFree advisor. The follow up sessions are designed to provide support and guidance along the GoSmokeFree journey to triple your chances of success.

HOW DOES IT BENEFIT YOU?

Stopping smoking is the single most important decision you can make for your health. The benefits of stopping smoking are almost immediate, but stopping smoking is not easy, as nicotine is highly addictive and smoking is associated with social activities such as drinking or eating and psychological factors such as work pressure, anxiety and body weight concerns.

The GoSmokeFree Stop Smoking Programme is available at participating pharmacies throughout South Africa. Simply visit www.gosmokefree.co.za, and leave your contact details including your location. You will then be contacted with a list of the closest accredited pharmacies.

What are chronic medicines?

This is medicine that you need to treat a long-term illness, and that you will need to take regularly (usually daily). This is an additional benefit over and above any day-to-day benefits allowed for by your Plan. (Acute medicine is medicine that is prescribed by your doctor to treat a temporary illness.) Chronic medicine authorisations are subject to clinical criteria and protocols.

How do I apply for chronic medicine?

Please note that the process differs depending on your Plan, particularly for members on the ***Hospital plus Network Plan.***

Hospital plus Network Plan

If you have selected this Plan, the following process will apply:

You will only have cover for the cost of the medicines listed on the Network Chronic Medicine Lists according to the Network formulary and only if the medicine has been prescribed by your Momentum/CareCross GP. This is subject to approval by the Network's clinical division.

If you move from any other benefit option to the **Hospital plus Network Plan,** you will need to reapply for Chronic Medicine approval.

STEP 1 Visit your Momentum/CareCross doctor for confirmation of your diagnosis. The doctor will complete the chronic medicine application on your behalf.

STEP 2 After you signed the form, the doctor will email the form to the Network's clinical division for verification.

STEP 3 The clinical department will evaluate the appropriateness of the request according to the chronic drugs list and Network formulary.

STEP 4 On completion of the process, your doctor will be informed if your application has been successful. The approved medicine may be collected at your nearest network pharmacy.

You may collect your chronic medicine from any Network pharmacy. Log on to the CareCross web site www.carecross.co.za to find your nearest pharmacy.

Hospital Core Plan and Hospital plus Savings Plan

If you have selected one of these Plans, the following process will apply:

How your medicine is approved:

Disease authorisations: Your Scheme has introduced a new way of approving chronic medicine to make management of changes easier for you, your pharmacist and your doctor. When you apply for chronic medicine, you are approved for treatment of your chronic condition and will have access to a list of pre-approved medicine, referred to as a formulary. This means that when you need to change or add a new medicine for your condition, you can do this quickly and easily at your pharmacy with your new prescription.

It is important to note that not all conditions are managed this way and you may need to still call in to update us if you require medicine that is not in your condition's formulary or if you are diagnosed with a new condition. The quantity of each medicine in the formulary is limited to the most commonly prescribed monthly dose. If you require higher quantities than those in the formulary, you will have to contact us for authorisation.

You do not need to update us with your new medicine if:

- your medicine is in the formulary; or
- you change to another medicine in the formulary; or
- you need a quantity or dosage of a medicine that is listed in the formulary.

Pre-approved medicine in the formulary will still be subject to MPL and formulary co-payments. You can check for co-payments with your pharmacist.

How to apply on the telephone and online:

If you need to register for, or update, your chronic medicine, you can do this on the telephone or online through the Chronic Medicine Management Department (CMM). The advantages of using these systems are that we can give you a quicker response and the online applications are available after hours as well. You, your doctor, or pharmacist or even your broker can complete the application. Below we provide you with a little more information on how.

When you contact us, it is important to have a copy of your current prescription with you during this phone call, although there is no need to send it in to us. Have the following information on hand:

- your membership number
- the date of birth of the person applying
- the ICD 10 code
- doctor's practice number

To authorise certain medicine you may also need to supply:

- medicine details
- the clinical examination data, e.g. weight, height, BP readings, smoking status, allergy information
- test results, e.g. lipogram results, Hba1c, lung function tests
- motivation provided by your prescribing doctor

Telephonically:

- Call CMM between 8:30am and 5pm by calling 0860 101 103 and select option 2 for members and then press 3 for chronic medicine.
- Follow the prompts; once you select the appropriate option your call will be routed through to a consultant who will guide you through the process.
- You will be informed of any co-payments.

By Email:

- You can also email horizoncmm@medscheme.co.za.

Online:

- Sign in on the Member Portal with your username and password. If you are a f irst-time user you will need to register. If you need assistance with registration, click on Horizon Member Portal registration steps.
- Go to " Healthcare" and click on "Apply for Chronic Authorisation".
- Follow the prompts on the system. Once all information has been captured, a summary can be viewed.
- Click on "Save Application" and a reference number will be provided for follow-up on the progress of the application.

The registration process is then completed and for both processes you may receive an immediate response. Where more clinical information is required, members of the clinical team will review the information supplied and correspond with you and your doctor either telephonically or in writing, on the status of the medicine requested. You can follow up on the progress of your application at any time by contacting CMM.

Things to be aware of:

- Approved medicine will be paid from the chronic medicine benefit.
- You will still need to take your original prescription to the pharmacy for the dispensing of your chronic medicine.

What if my medicine changes?

In most cases where your medicine is changed by your treating doctor, you will be able to go straight to your pharmacist with a new script. If you have a Disease Authorisation you will have access to a formulary of pre-approved medicines for your condition.

You only need to update us with your new medicine, either telephonically or online as described above, if:

- your medicine is not in the formulary; or
- you are diagnosed with a new chronic condition; or
- you need a quantity or dosage of a medicine that is more than the quantity listed in the formulary.

MPL co-payments will still apply to medicine that is pre-approved in formularies. Check the formulary for your condition as well as the MPL information on the logged-in Member Portal, which you can access via HorizonMembers.medscheme.co.za.

How do I obtain an additional month's supply of chronic medicine?

Should you require more than one month's supply of medicine, for example if you are going away on holiday, you will need to provide a motivation to the Scheme through the call centre or via horizon@medscheme.co.za, at least one month before you need the additional medicine. You will be required to provide a travel itinerary.

For enquiries about chronic medicine claims, please contact the Horizon Medical Scheme Call Centre.

Which basic chronic diseases are covered by all Plans, under PMBs?

Members will receive benefits for ailments specified by the Minister of Health as PMBs, subject to the Network formulary or the Medscheme Comprehensive formulary. Medicines will be approved if the relevant Clinical Entry Criteria are met.

The PMB conditions are:

Addison's disease	Epilepsy
Asthma	Glaucoma
Bipolar mood disorder	Haemophilia
Bronchiectasis	HIV and AIDS
Cardiac failure	Hyperlipidaemia
Cardiomyopathy	Hypertension
Chronic obstructive pulmonary disease	Hypothyroidism
Chronic renal disease	Multiple Sclerosis
Coronary artery disease	Parkinson's disease
Crohn's disease	Rheumatoid arthritis
Diabetes insipidus	Schizophrenia
Diabetes mellitus (Type 1 and 2)	Systemic lupus erythematosus
Dysrhythmias	Ulcerative colitis

Which additional chronic benefits are covered under the **Hospital plus Savings Plan**?

If you select the **Hospital plus Savings Plan**, you will also qualify for treatment of the following conditions, to a limit of **R15 240** per beneficiary per year.

Acne	Hyperthyroidism
Allergic Rhinitis	Hyperparathyroidism
Alzheimer's Disease	Hypoparathyroidism
Anxiety Disorder	Macular degeneration and oedema
Attention Deficit Hyperactivity Disorder (6-18 years, unless clinically appropriate)	Menopause
	Myasthenia Gravis
Benign Prostatic Hypertrophy	Osteo-Arthritis
Cerebral Palsy	Osteoporosis
Depression	Psoriasis
GORD	Psychotic Disorders
Gout	Pulmonary Embolism

7 | Hospital Benefits

IN THIS SECTION

- What are Hospital Benefits?
- What cover is available for Hospital Benefits?
- How does hospital pre-authorisation work?
- What co-payments are payable on laparoscopic surgery?
- What services and procedures are covered during hospitalisation?

What are Hospital Benefits?

Major Medical Benefits generally cover major medical expenses that you would incur when undergoing surgery or while admitted in hospital, as well as specified procedures performed in the doctors' rooms.

A visit to a hospital's Emergency Rooms (ER) does not qualify to be paid from your Hospital Benefits, unless the incident is of such a serious nature that you are admitted to a ward in the hospital itself, for further treatment.

What cover is available for Hospital Benefits?

All members on all Plans are covered for Major Medical Benefits, but the overall annual limit and some of the specific benefit limits differ between Plans.

How does hospital pre-authorisation work?

To facilitate your hospital admission, you should always adhere to the procedures described below:

- Before you (or any of your beneficiaries) are admitted to hospital to undergo a medical procedure, please inform Medscheme's Hospital Benefit Management of your forthcoming hospital admission and provide them with the following information:
  - membership number
  - beneficiary details
  - patient's date of birth
  - planned date of admission to hospital or treatment
  - name and practice number of the hospital/facility
  - name and practice number of the doctor who is treating the patient in hospital
  - relevant codes
  - if treatment will be in or out of hospital
- It will be in your interest if you contact the Call Centre for ALL Hospital Procedures.
- In an emergency situation, where you, or any of your beneficiaries, are admitted directly to hospital, a member of your family or the hospital concerned must contact the Hospital Benefit Management Department on the first working day after admission.
- Phone the Authorisation Centre for general admissions, scans and radio-isotope studies.
- If you/your dependants are scheduled to undergo an operation in the afternoon, you should ask your doctor to admit you/them after 12:00. In this way the Scheme can avoid incurring unnecessary hospital costs.

Contact Details:

Office Hours are from 08:30 till 16:30 from Monday to Friday, excluding public holidays. For your convenience, an **automated voice system** is available after hours, 7 days a week. An agent will return your call the next working day to complete the authorisation.

Email Address: horizon.authorisations@medscheme.co.za
Call Centre Number: 0860 101 103
You may also obtain pre-authorisation on the Member Portal.

What co-payments are payable on laparoscopic surgery?

- Laparoscopic procedures are more expensive, and the procedure may in general be performed as an open procedure. The Scheme has therefore decided, like many other medical schemes, to fund these procedures with a co-payment, rather than only cover open procedures.
- Members who undergo the following procedures will therefore be liable for the co-payments shown on the right (excluding PMB level of care):

Procedure	Co-payment
Laparoscopic hernia repair	R1 400
Laparoscopic hysterectomy	R3 610
Laparoscopic radical prostatectomy	R11 220
Laparoscopic pyeloplasty	R11 220
Knee arthroscopy	R1 400
Upper GI endoscopy / colonoscopy	R1 400

What services and procedures are covered during hospitalisation?

The table below outlines services and procedures you and your registered dependants are covered for, subject to the relevant managed healthcare programme and to prior authorisation. Benefits are the same across Plans, unless otherwise stated.

1. Overall annual limit	**Hospital Core Plan** and **Hospital plus Network Plan: R1 984 400** per family per year. **Hospital plus Savings Plan:** Unlimited.
2. Co-payment per event	**Hospital Core Plan** and **Hospital plus Network Plan: R1 000** co-payment is payable on admission. **Hospital plus Savings Plan:** None.
3. Pre-authorisation	All scheduled hospital admissions are subject to pre-authorisation, which must be obtained 3 working days prior to admission. Authorisation for unscheduled admissions or emergencies must be obtained within 24 hours of admission or on the first working day thereafter. Authorisation will only be granted for medically necessary treatment and procedures. If authorisation is not obtained, the member may be liable for a penalty.

4. Emergencies, trauma (external violent events) **and confinements**	ANY hospital.
5. Routine and scheduled hospitalisation events	ANY hospital.
6. Specified high risk procedures	ANY hospital.
7. Ward and theatre fees	100% of cost or MSR, whichever is the lesser.
8. Medicine – Ward and theatre drugs (excluding drugs to take out of hospital)	100% of the medicine price. Includes medicines and materials for injections or vaccinations, prescribed while accommodated in a hospital, nursing home or clinic.
9. Medicine – Medicine on discharge from hospital (TTO)	100% of Medicine Price. **R750** per beneficiary per admission. This excludes anti-coagulants listed under the Drug Policy.
10. GP's & specialists (except radiology and pathology)	100% of cost or MSR, whichever is the lesser, subject to Managed Care Protocols.
11. Procedures performed in doctors' rooms Subject to pre-authorisation.	100% of cost or MSR, whichever is the lesser, subject to pre-authorisation. This covers Major Medical Procedures (normally performed in hospital) that are performed in doctors' rooms.
12. Maxillofacial surgery (in and out of hospital, excluding specialised dentistry)	100% of cost or MSR, whichever is the lesser, limited to **R59 000** per member family per year, subject to prior authorisation.
13. Basic dentistry performed by a dental practitioner and/or a dental therapist including minor oral surgery as defined in section J of the SADA guide.	100% of cost or MSR, whichever is the lesser, subject to relevant Managed Care Protocols and authorisation. General anaesthesia, conscious sedation and hospitalisation will only be granted for beneficiaries: • Under the age of 8; • Or with bony impaction of third molars.
14. Medical auxiliaries/other in hospital	100% of the cost or MSR, whichever is the lesser.

15. Ambulance services	**Hospital Core Plan** and **Hospital plus Network Plan:** 100% of tariff as agreed to with the contracted provider, subject to the use of the Scheme's preferred provider's services. **Hospital plus Savings Plan:** 100% of tariff as agreed to with the contracted provider, subject to the use of the Scheme's preferred provider's services. Contracted services only, otherwise subject to balance in PMSA.
16. Blood and blood products	100% of cost or MSR, whichever is the lesser.
17. General radiology	100% of cost or MSR, whichever is the lesser, subject to referral by the treating healthcare professional for services rendered, and Managed Care Protocols. Bone densitometry scans performed in a specialist practice limited to one per family per year (in or out of hospital).
18. Specialised radiology, MRI & CAT scans	100% of cost or MSR, whichever is the lesser, subject to Managed Care Protocols and prior authorisation. A **R1 500** co-payment per event will apply to non-PMB specialised radiology.
19. Pathology	100% of cost, subject to using the DSPs for pathology services (Ampath, Lancet, Pathcare or Vermaak) at negotiated rates. MSR for services rendered by a non-DSP provider.
20. Hearing aid benefit Benefit is subject to the submission of a motivation by the treating doctor to the Scheme and approval prior to the acquisition or hire of the device.	Beneficiaries up to the age of 6 years: 2 Hearing Aids up to **R51 000** per member family once every 3 benefit years. Beneficiaries 7 years and older: 1 Hearing Aid up to **R25 600** per member family once every 3 benefit years.
21. Physiotherapy	100% of cost or MSR, whichever is the lesser, subject to Managed Care Protocols.
22. Organ Transplants	100% of cost per beneficiary per year for transport of organs, hospital accommodation, surgically related services and procedures, subject to PMBs. 100% of cost of anti-rejection drugs, provided that the drugs are obtained from a preferred provider, subject to PMB protocols.

23. Renal dialysis	100% of cost or MSR, whichever is the lesser in respect of all materials, related costs and approved medicine. Subject to the relevant Managed Care Protocol and authorisation. This benefit includes related pathology, scans and consultations. For all services, medicine and materials associated with the cost of renal dialysis.
24. Oncology	**R636 000** per member family per year. 100% of cost or MSR, whichever is the lesser, subject to enrolment on the Oncology Benefit Management Programme and submission of a treatment plan. Subject to PMB protocols. This limit will apply to the following cancer-related disciplines: Pathology, X-rays, MRI and CAT Scans, chemotherapy, drugs associated with chemotherapy (e.g. anti-nausea), medicine for terminal illness, radiotherapy, mammograms and the oncologist's consultations.
25. PET Scans	**R45 500** per beneficiary per year for treatment of non-PMB conditions, subject to the Oncology limit of **R636 000**.
26. Oncology specialised drugs The oncology specialised drug list is a continuously evolving list of drugs used for the treatment of cancers and certain haematological conditions. This list includes but is not limited to targeted therapies e.g. biologicals, tyrosine kinase inhibitors, and other non-genericised chemotherapeutic agents.	**R294 000** per member family. Subject to Oncology limit, Managed Care Protocols and authorisation. Subject to published list. Subject to the re-imbursement limit, in other words, Maximum Generic Price or Medicine Price List.
27. Brachytherapy materials	**R72 700** per member family per year, subject to the Oncology limit of **R636 000**. 100% of the negotiated fee, or in the absence of such fee, 100% of the cost or MSR or Uniform Patient Fee schedule for public hospitals for radiation oncologists. Includes seeds, disposables and equipment. Subject to Managed Care Protocols and authorisation.

28. Specialised drugs for non-oncology The non-oncology specialised drug list is a continuously evolving list of high-cost drugs, used for the treatment of chronic conditions. This list includes but is not limited to biological drugs (biological therapy for inflammatory arthritides, inflammatory bowel disease, chronic demyelinating polyneuropathies, chronic hepatitis, botulinum toxin, palivizumab). Unless otherwise stated, for any other diseases where the use of the drug is deemed appropriate by the managed health care organisation, drugs will be funded from this benefit.	**R272 000** per member family. Subject to Managed Care Protocols and authorisation. Subject to published list. Subject to the Oncology limit of **R636 000**.
29. Drugs for treatment of macular degeneration and oedema	**R91 000** per member family, subject to the non-oncology specialised drugs limit, Managed Care Protocols and authorisation.
30. Acute rehabilitation	**R112 600** per member family per year. 100% of the negotiated fee, or, in the absence of such fee, 100% of cost or MSR, whichever is the lesser. Subject to pre-authorisation and the submission of a motivation by the treating medical practitioner to the Case Manager. Progressive neurological conditions are excluded. The condition must be non-progressive. The acute conditions which are covered are as follows: severe motor vehicle accidents, strokes, brain injuries, spinal cord injuries, debilitating bacterial illnesses, debilitating viral neurological illnesses and amputations.
31. Private nursing in the place of hospitalisation	100% of cost or MSR, whichever is the lesser, subject to the limit of **R29 400** per family per year. Nursing services must be pre-authorised by the Case Manager. This benefit covers home services by a registered nurse, pre- and post-confinement treatment by a registered midwife and is for short-term episodes of acute cases only, in the place of hospitalisation. Only medically necessary services will be covered.

32. Home oxygen therapy Home oxygen, cylinders, concentrators and ventilation expenses.	100% of cost provided the service is pre-authorised. **R28 600** per member family per year. This benefit is subject to pre-authorisation and includes the cost of an appliance obtained from a preferred provider.
33. Mental health (in and out of hospital – consultations and visits, assessments, therapy, treatment, procedures and/or counselling)	100% of the negotiated tariff up to a maximum of 21 days per beneficiary per benefit year or outpatient psychotherapy, up to 15 contact sessions. This benefit covers all related costs. Subject to application, approval and authorisation by the Scheme. This benefit includes consultations with a psychiatrist on an outpatient basis, and chronic medication for depression will also be covered (subject to criteria to be met), up to a limit of **R2 000** per beneficiary per year. Members on the **Hospital Core Plan** who meet the required criteria may also enrol onto the Mental Health Programme – see page 54 for further detail on this benefit.
34. Internal surgical appliances and surgical prosthesis	Any other prosthesis not listed below will be subject to a limit of **R84 000** per beneficiary per year. Subject to managed healthcare programme and its prior authorisation.
35. Cardiac system	Cardiac stents (including the carrier): **R46 500** per stent, 3 stents per beneficiary per year. Cardiac pacemakers: **R112 300** per beneficiary per year. Cardiac valves: **R66 000** per valve, 2 valves per beneficiary per year. Cardiac resynchronisation therapy: **R77 300** per beneficiary per year.
36. Endovascular devices	Aortic Stents: **R192 000** per stent, 1 stent per beneficiary per year, includes the delivery system. Carotid stents: **R31 900** per beneficiary per year. Detachable platinum coils: **R79 500** per beneficiary per year. Embolic protection devices: **R79 400** per beneficiary per year. Peripheral arterial stent grafts: **R65 800** per beneficiary per year.

37. Orthopaedic prostheses and devices

The Scheme has appointed Preferred Providers for hip and knee replacements to ensure the best health outcomes and financial peace of mind for members. These providers use a multidisciplinary team dedicated to assist with rapid and successful recovery, keeping you as comfortable as possible during the healing period.

The following will be covered as part of your hip or knee replacement through a preferred provider:

- All hospital costs
- Surgeons and anaesthetist fees
- Prosthesis (subject to the prosthesis benefit)

Total hip replacement: **R91 000** per hip per beneficiary per year, includes the cost of cement and antibiotics.

Total knee replacement: **R86 600** per knee per beneficiary per year, includes the cost of cement and antibiotics.

Total shoulder replacement: **R75 300** per shoulder per beneficiary per year, includes the cost of cement and antibiotics.

Total elbow replacement: **R69 800** per elbow per beneficiary per year, includes the cost of cement and antibiotics.

Bone lengthening devices: **R71 400** per beneficiary per year.

Spinal plates and screws: **R57 700** per beneficiary per year.

Other approved spinal implantable devices and intervertebral discs: **R79 500** per beneficiary per year.

38. Central nervous system	Neuro-stimulation/ablation devices for Parkinsons: **R72 300** per beneficiary per year. Vagal stimulator for intractable epilepsy: **R61 200** per beneficiary per year.
39. Ophthalmic system	Intraocular lenses: **R4 970** per lens, 2 per beneficiary per year. Corneal grafts: **R42 500** per beneficiary per year, subject to overall annual limit.
40. HIV HIV Positivity Pathology HIV counselling and testing Prophylactic medicine for prevention of HIV virus transmission in the case of needle-prick, rape or infection of mother (mother–to-child prevention)	100% of cost, subject to registration on the HIV Management Programme. Polymerase chain reaction (3974) to be paid from the Major Medical benefits for dependants up to 18 months old, where the diagnosis refers to HIV testing. Pre-test counselling. Testing and post-test counselling. 100% of Medicine Price.
41. External medical appliances/prosthesis	**Hospital plus Savings Plan:** 100% of cost or MSR, whichever is the lesser, subject to **R16 300** per beneficiary per year. Permanent or temporary devices that are not surgically implanted and are seen to improve the function of a diseased organ. Benefit is subject to the submission of a motivation by the treating doctor to the Scheme and approval of the purchase or hire of the device prior to the acquisition or hire of the device. No benefit shall be available for APS machines unless approved by the Scheme. **Hospital Core Plan** and **Hospital plus Network Plan:** No benefit.
42. Maternity Benefits – See the chapter on Maternity Benefits.	

PLEASE NOTE:

The Scheme (or contracted managed care company on behalf of the Scheme) may from time to time contract with or pilot with or credential specific provider groups (networks) or centres of excellence as determined by the Scheme in order to ensure cost-effective and appropriate care. Beneficiaries are entitled to benefits from contracted networks appointed as the Scheme's DSP for PMBs and other benefits (as set out in Annexure D of the Scheme's Rules). The Scheme reserves the right not to fund, partially fund or may impose a co-payment for services acquired outside of these networks, provided reasonable steps are taken by the Scheme to ensure access to the network. The application of these rules will be subject to Prescribed Minimum Benefits.

What benefits are offered by the Horizon Maternity Programme?

We believe that a pregnancy should be a unique and joyful experience. Through targeted support during each trimester, pregnancy education and specific related engagements, via telephone and digital channels, we aim to help pregnant beneficiaries to achieve this. With our new Maternity Programme, we hope to improve the health of moms-to-be and, as a result, reduce the number of complications.

Expectant mothers can look forward to the following:

24/7 MATERNITY HEALTH ADVICE LINE

Should you have any health-related queries during your pregnancy, you can call the 24/7 Maternity Health Advice line on **0860 999 121**. Remember to have your member number on hand. This telephone service is nurse-led and has been developed to provide our pregnant members with optimum advice. (This is a purely medical advice line; no diagnosis or prescription will be given.)

DEDICATED CLINICAL CARE ADVISORS

A maternity nurse/midwife will call you at certain key stages throughout your pregnancy. This is to support and advise you on how to look after your health while expecting. You will be reminded about supplementation, diet and follow-up visits.

PREGNANCY EDUCATION EMAILS AND SMSs

You'll also receive regular emails and SMSs for the duration of your pregnancy to help you prepare for the birth. These emails and SMSs will be stage-appropriate and cover topics such as preparing for childbirth, normal delivery vs caesarean, breast care, breast feeding, nutrition, etc.

ONLINE ANTENATAL CLASSES

From the moment you register with the Horizon Maternity Programme, you'll be added to our database to receive communication, including information on how to access online antenatal classes to prepare you for the birth, your stay in hospital and what to expect when you go home.

HORIZON BABY BAG

We give all pregnant members a beautiful baby bag to congratulate you on the arrival of your bundle of joy. The baby bag is packed with goodies for you and your newborn. This may include nappies, baby wipes, bath products, toiletries, and other items*.

To register for your baby bag, you must be at least 24 weeks pregnant and have obtained pre-authorisation for your delivery.

**Contents dependent on availability*

Benefit by joining as soon as you know you're pregnant – just call 0860 999 121!

What specific medical cover is offered by the Scheme?

	WHY YOU NEED IT	HOW THE SCHEME CAN HELP
1. ANTENATAL CONSULTATIONS	To make sure your pregnancy is progressing well, you would need to consult your GP, a gynaecologist or a midwife from time to time. **Members' questions:** Q *Would I need to pay upfront then claim back? Or will the GP, gynaecologist or midwife send in my claim?* A *This will depend on your service provider - ask them how they usually do things when you make your appointment.* Q *Can I see a gynaecologist of my choice?* A *Yes*	The Scheme covers consultations that form part of your pregnancy as follows (see Member Guide). **BENEFIT AMOUNT:** • If you are on the **Hospital Core** or **Hospital plus Network Plan**: **R2 680*** per pregnancy. • If you are on the **Hospital plus Savings Plan**: **R3 700*** per pregnancy. **100% of cost or MSR, whichever is the lesser, subject to PMB protocols.* **IN ADDITION:** Hospital plus Network Plan members also qualify for consultations with a Momentum/CareCross GP to supervise an uncomplicated pregnancy up to week 20. (In the case of a complicated pregnancy, the GP should refer the patient to a gynaecologist for the remainder of the pregnancy. The consultations for the gynaecologist would be funded from the member's available specialist benefit limit, whereafter it would be for the member's own account.)
2. ANTENATAL CLASSES	Childbirth education, often referred to as antenatal classes, is an opportunity for expectant parents to learn about the physical and emotional aspects of pregnancy, childbirth and early parenting. **Members' question:** Q *Would I need to pay upfront then claim back? Or will they send in my claim?* A *This will depend on your service provider - ask them how they usually do things before you start with your classes.*	The Scheme covers antenatal classes offered by a registered midwife. **BENEFIT AMOUNT ON ALL PLANS:** **R2 100*** per family per benefit year. **100% of the SPNP rate or in the absence of such a fee, 100% of the cost or MSR, whichever is the lesser.*

	WHY YOU NEED IT	HOW THE SCHEME CAN HELP
3. ULTRASOUND SCANS DURING PREGNANCY	The main purpose of the first scan (usually between 10 and 14 weeks) is to estimate your delivery date, check how many babies you're carrying, and whether they're developing normally. **Members' question:** Q *What is the importance of the scan? Is there a scan for Down Syndrome or birth defects?* A *Between week 11-13 a scan together with blood tests can be used to check for Down's syndrome and early abnormalities. Around week 22 a detailed foetal anomaly scan is done to monitor the development of all the organ systems and the physical structure of your baby.*	The Scheme covers two 2D scans per beneficiary per pregnancy on the **Hospital Core** and **Hospital plus Network Plans**, and four 2D scans per beneficiary per pregnancy on the **Hospital plus Savings Plan**. **IN ADDITION:** Hospital plus Network Plan members also qualify for one 2D scan in the first trimester of their pregnancy.
4. OUT-OF-HOSPITAL PATHOLOGY TESTS	Some tests are standard in a pregnancy, while others may become necessary if your healthcare provider picks up a potential problem.	The Scheme covers certain applicable blood tests, urine stick tests and other pathology tests you may need, subject to it being clinically indicated. **BENEFIT AMOUNT ON ALL PLANS:** **R3 400*** per family per year. **100% of cost, subject to a list of pathology tests and using the DSPs for pathology services (Ampath, Lancet, Pathcare and Vermaak) at negotiated rates. MSR for services rendered by a non-DSP provider.*

	WHY YOU NEED IT	HOW THE SCHEME CAN HELP
5. PRIVATE HOSPITAL / BIRTHING UNIT	When giving birth, it is comforting to have access to quality medical equipment and support staf f. The Scheme of fers great in-hospital maternity benefits - you just need to make some decisions around the birth of your baby beforehand, to ensure you can make the necessary pre-bookings and pre-authorise the facility you will be using. *See page 35 on how to pre-authorise your admission.*	**HOSPITALISATION AT A PRIVATE HOSPITAL*** • Cover for general wards (generally 2 days for normal delivery and 3 days for Caesarean section, if there are no complications). • Theatre and recovery room fees. • Doctor's/gynaecologist's/midwife's' visits whilst in hospital, at Medical Scheme Rate. (TIP: Find out beforehand what they will charge and call the Contact Centre to help you compare that with the Medical Scheme Rate, to get an idea of your potential out-of-pocket costs.) • Medication on discharge from hospital (limited to **R750**). **The cover is at Medical Scheme Rate or cost, whichever is the lesser, and subject to pre-authorisations and managed care protocols.* **REGISTERED BIRTHING UNIT** • Delivery by a registered midwife. • Hire of a water bath, which is included in the confinement benefit. • Four post-natal midwife consultations per event if a gynaecologist is not used.
6. HEARING TEST FOR NEW-BORN BABY	Hearing tests for newborns focus on identifying hearing loss early, as identifying any hearing problem sooner rather than later can make a big difference in your child's development. It is normally performed in hospital before the mother and baby are discharged, and it is a painless test that only takes a few minutes.	You have access to a hearing screening for your newborn baby – just remember to have the test done before your baby is 6 weeks old. This test will be paid at 100% of cost or MSR, whichever is less.

	WHY YOU NEED IT	HOW THE SCHEME CAN HELP
7. CHILD IMMUNISATIONS	Immunisation helps your baby to create immunity to certain diseases. It protects your baby against debilitating and often life-threatening diseases such as polio, TB, tetanus, measles and more. **Members' question:** Q *Where can I get these immunisations?* A *You can get free child immunisations at Primary Care State clinics as per the Department of Health's guidelines. Private Mother and Baby clinics, some pharmacy clinics and some private hospitals have their own private clinics.*	You have access to child immunisations as per the Department of Health's protocols and including Chicken Pox, Hepatitis A, Pertussis, Meningitis and MMR vaccines up to the age of 12 years. This benefit applies to the cost of the relevant drops and vaccinations and the vaccine administration will be covered up to the rate of **R60** for 2024. Subject to available wellness benefits.
8. PHOTOTHERAPY	Newborn babies sometimes develop jaundice (visible in their skin and the whites of their eyes turning yellow) because their livers are not mature enough to remove bilirubin from the blood. Too much bilirubin is harmful to your baby, which is why such jaundice must be treated.	Sometimes it is enough for a baby to receive a bit of natural sunlight. In more severe cases your healthcare provider may recommend phototherapy. In such a case you do not need the treatment to be performed at the hospital for it to be funded from your Hospital Benefits. As long as the treatment is authorised by the Scheme, it can be performed at your home by a registered nurse and will still be funded from your Hospital Benefit, subject to clinical criteria.

What are the emergency benefits?

Horizon Medical Scheme is contracted with ER24, a countrywide 24-hour medical emergency service provider that renders assistance ranging from immediate telephonic advice to active intervention, using a specialised medical fleet, qualified medical professionals, and portable, high-level equipment.

The ER24 Contact Centre is supervised by medical doctors experienced in emergency medicine and staffed by qualified and experienced nurses and paramedics. ER24's highly trained staff will advise you on what steps to take in an emergency situation and, if necessary, activate their extensive ground or air resources to assist you. ER24's database of medical services and facilities throughout South Africa ensures that every call receives the best possible attention.

This emergency service is available countrywide, 24 hours a day, 365 days a year:

- Emergency medical response by road or air, whichever is the most appropriate, to the scene of a medical emergency.
- Transfer by ambulance or air to the closest, most appropriate medical facility.
- Inter-hospital transfers (only when medically justified as motivated by a medical practitioner), subject to authorisation by ER24.

ER 24 provides full cover to Horizon members and their beneficiaries. In an emergency call **084 124** (also for 24-hour emergency advice). ER24 strongly advises you to attach your car sticker to the rear-window of your motor vehicle. This will alert any emergency service on the scene of an accident that you are a member of ER24.

What is an emergency?

An emergency medical condition means the sudden and, at the time, unexpected onset of a health condition that requires immediate medical treatment and/or an operation. If the treatment is not available, the emergency could result in weakened bodily functions, serious and lasting damage to organs, limbs or other body parts, or even death.

What must I do in an emergency?

- Call **084 124** (ER24's number) in an emergency.
- ER24's staff can advise you what immediate steps to take.
- If necessary, ER24 will activate their ground and air resources to help you.
- If you have to go to the hospital, remember to take along your membership card (if possible).

Remember to authorise hospitalisation to minimise costs!

If you or any of your beneficiaries are admitted directly to hospital in an emergency, a member of your family or the hospital concerned must contact the Hospital Benefit Management Department on the first working day after admission.

Call Centre number: **0860 101 103**

Please note: If you are transported to hospital by an ER24 ambulance (even though approved), and on examination you are found to be fit enough to return home, you will be responsible for arranging your own transport home.

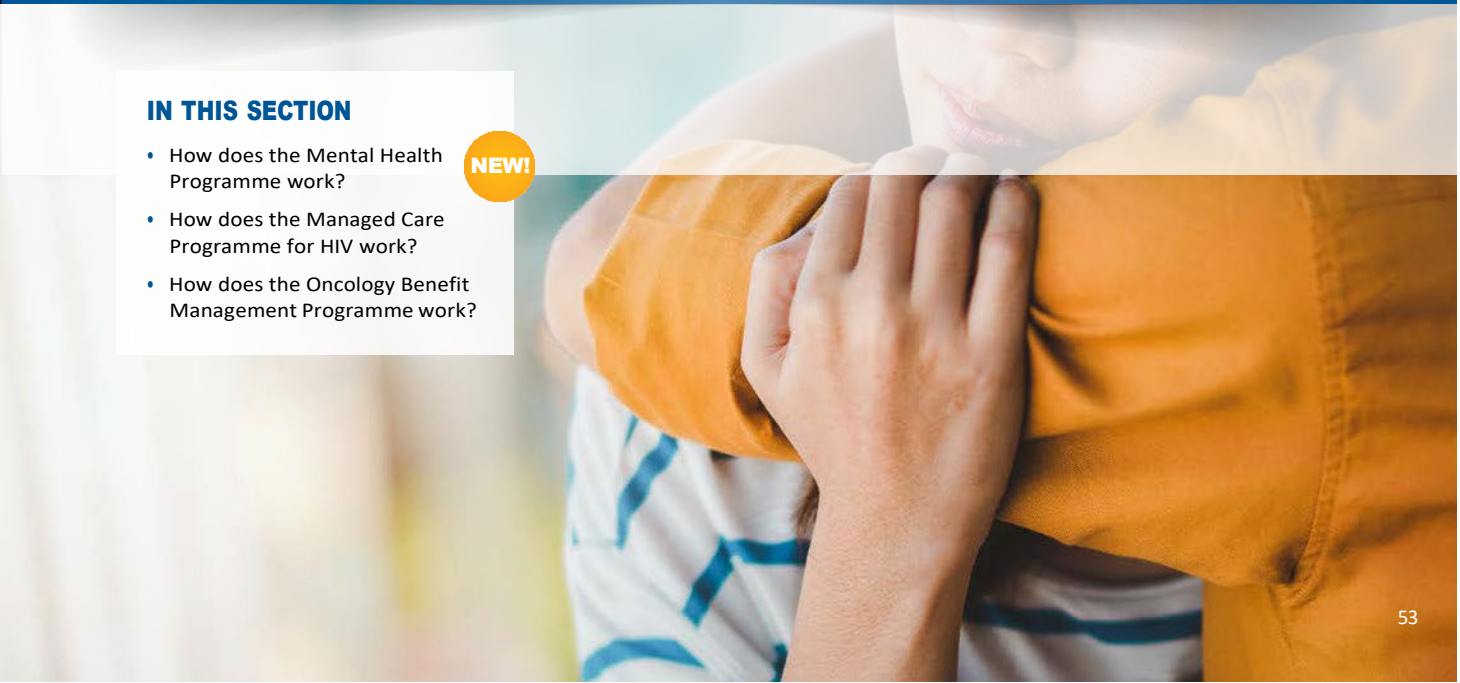
10 | Managed Healthcare Programmes



IN THIS SECTION

- How does the Mental Health Programme work? NEW!
- How does the Managed Care Programme for HIV work?
- How does the Oncology Benefit Management Programme work?

NEW!

How does the Mental Health Programme work?

This programme aims to improve your quality of life and empowers you to manage your condition more effectively. Once you've enrolled on the programme, a dedicated Care Manager will be assigned to assist you and will collaborate with your treating doctor to ensure that you get the support you need.

What does this programme offer?

- Access to a Care Manager that will work with you, your treating doctor and where appropriate, with other healthcare professionals to assist in improving your condition.
- Care Manager will help you set up appointments with your Dr, obtain authorisation for healthcare services, understand the importance of preventative care and the use of wellness benefits or resolve queries related to any other health condition.
- Educational material about mental health which empowers you to manage your condition.

Who can join the programme?

Members who suffer from mental health conditions such as depression, anxiety, post-traumatic stress disorder (PTSD) and alcohol abuse may be assessed and registered on the programme.

How do I access the programme?

- To register your mental health condition, call **0860 106 155** or email membercare@medscheme.co.za.
- You will be assessed to determine your eligibility to join the mental health programme.
- Nominate the treating doctor you want to continue supporting your mental health. It's important that you grant us informed consent - that will allow us to share information with your doctor and monitor treatment and management of your mental health so you get the best possible care.

How does the Managed Care Programme for HIV work?

Members and dependants of the Horizon Medical Scheme have access to benefits for the treatment of HIV. These benefits can be accessed by registering on the ***HIV management programme***.

HIV

HIV is a manageable chronic disease. Treatment is available that allows people living with HIV to lead healthy and productive lives. Research has demonstrated that people living with HIV can live a near normal lifespan if they are compliant to treatment.

Action and Information

The first step is to find out whether you have been infected with HIV and what you can do to protect your loved ones and stay healthy. Medicines are available to attack the virus, while good nutrition and exercise can play a critical role in keeping your body strong and healthy. Starting treatment early ensures the effectiveness of the medicines, improves quality of life and decreases the risk of serious infections or other complications.

Our ***HIV management programme*** can help you access benefits to assist you with the best way of managing HIV.

We can help you to manage your condition

Our ***HIV management programme*** is specifically for HIV-related medicine. This programme is used to pay for medicine to attack the virus, medicine to prevent opportunistic infections and regular pathology monitoring tests. You will also receive support from the adherence coordinators who will assist you with relevant information to assist you in managing your disease.

Your condition will stay confidential

HIV is a sensitive matter and every effort is made to keep your condition confidential. The staff members have all signed confidentiality agreements and are employed in a separate company from the Scheme or the administrator. Staff at the ***HIV management programme*** will not reveal your HIV status to anyone, without your permission. The ***HIV management programme*** uses separate telephone, fax and private mailbag facilities from the Scheme or the administrator. Patients need to use these facilities to maintain confidentiality.

You must register on our *HIV management programme*

If your test shows you are HIV-positive you must register on the ***HIV management programme*** as soon as possible to make use of this benefit. Telephone in confidence and ask for an application form and the counsellor will also assist you with registering on the ***HIV management programme***. Your doctor can also contact us on your behalf.

After you have registered

After you receive the application form, you and your doctor must complete it and return it to the ***HIV management programme*** by using the confidential, toll-free fax line number or email address on the form. A highly qualified medical team will examine your details and if necessary, discuss an appropriate treatment with your doctor.

Once treatment has been agreed upon, you and your doctor will be sent a detailed treatment plan, which explains the approved medicine as well as the regular tests that need to be done to ensure that the medicines are working correctly.

What the HIV management programme offers you

The Scheme's HIV management programme is a complete HIV disease management programme that offers both members and beneficiaries:

- Medicine to treat HIV (including drugs to prevent mother-to-child transmission and infection after sexual assault or needle stick injury) at the most appropriate time.
- Treatment to prevent opportunistic infections like certain serious pneumonias and TB.
- Regular monitoring of disease progression and response to therapy.

- Regular monitoring tests to pick up possible side-effects of treatment.
- Ongoing patient support via an HIV Care Co-ordination Line.
- Clinical guidelines and telephonic support for doctors.
- Help in finding a registered counsellor for emotional support.

Contact Aid for AIDS (AfA).

SMS (call me): 083 410 9078

How does the Oncology Benefit Management Programme work?

If you have been diagnosed with cancer, the Oncology Benefit Management Programme allows you access to a team who is available to assist and guide you on your oncology benefits, and to provide you with support and education on your condition.

Why is it necessary for me to register on the Oncology Benefit Management Programme?

By enrolling on the programme, you will qualify for the annual oncology family benefit limit. It will also ensure that health services related to oncology, such as your doctor's consultations, general and specialised radiology and pathology during follow-up visits to the doctor, will be covered from your oncology benefit. By obtaining authorisation you are also ensuring that your treatment is effectively managed within your available benefits.

This benefit forms part of your Hospital Benefits. It is envisaged that in most cases this limit will be sufficient to cover well-managed costs.

If your care plan is not approved, you will not have access to the oncology benefit limit, and all your cancer-related accounts will be paid from your day-to-day benefit (if applicable) and, once depleted, from what is available in your Personal Medical Savings Account.

The Oncology Case Manager will address any concerns with the treating oncologist.

- Please submit your care plan to Medscheme via email to: cancerinfo@medscheme.co.za.
- If you have any queries regarding the Oncology Benefit Management Programme or your condition, please contact the Oncology Case Manager on **0860 100 572**.

How to obtain authorisation for associated treatment

1. Surgery/procedures/hospital admissions:

If you need to be admitted to hospital for chemotherapy or radio-therapy, please contact the ***Oncology Management Department*** directly.

Surgery or related procedures are covered from the hospital benefits and not the oncology benefit, so you will need to obtain a pre-authorisation from the ***Hospital Pre-authorisation Department.***

2. Specialised radiology (including PET scans):

If you require specialised radiology, such as CT, MRI or PET scans, you will need an additional authorisation from the ***Oncology Management Department*** for it to be covered from your oncology benefit.

When applying for a specialised radiology authorisation, the following information is required:

- membership number,
- dependant number,
- requesting doctor practice number,
- radiology practice number,
- codes to be charged and estimated cost, and
- reason for the scan.

If you need an authorisation for a PET scan, your doctor must complete the PET scan form, which is available at all PET scan units.

3. Hospice, private nursing and medical admissions:

If you need services such as home nursing or hospice, you need to contact the ***Hospital Preauthorisation Department.*** You can also contact this department if you have complications such as dehydration or excessive vomiting, or need to be hospitalised for pain control.

Please note: *The account claims process and claims queries are not handled by the Oncology Case Manager. These queries should be directed to the General Enquiries call centre.*

FAQ
Jargon Guide

What are PMBs?

The regulations published in terms of the Medical Schemes Act 131 of 1998 stipulate the scope and level of the minimum benefits to which members of the Scheme are entitled. Prescribed Minimum Benefits (PMBs) are a set of defined benefits that ensure that all medical scheme members have access to certain minimum health services, regardless of the benefit Plan they have selected.

PMBs are fully covered by your medical scheme, provided you follow the guidelines. The cover is related to the diagnosis, treatment and care of:

- any emergency medical condition;
- a limited set of 270 Diagnostic Treatment Pairs (DTP) defined in the DTP list on the Council for Medical Schemes website; and
- other Scheme-approved chronic conditions (defined in the Chronic Disease List on page 33 of this member guide).

When deciding whether a condition is a PMB, the doctor should look only at the symptoms and not any other factors, such as how the injury or condition was contracted. This approach is called diagnosis-based. Once the diagnosis has been made, the appropriate treatment and care is decided upon, as well as where the patient should receive the treatment (at a hospital, as an outpatient or at a doctor's rooms).

270 Diagnostic Treatment Pairs (DTP)					Other Scheme-approved Chronic Diseases List (CDL) conditions	
Acute Conditions		Chronic Conditions				
Medical management of the condition	Medicine for the condition	Medical management of the condition	Medicine for the condition	Hospitalisation	Medical management of the condition	Medicine for the condition

Why do we have PMBs?

There are two reasons why PMBs are in place:

- To ensure that medical scheme beneficiaries have continuous healthcare. This means that even if a member's benefits for the year run out, the Scheme will continue to pay for the treatment of PMB conditions. These benefits are subject to the medical management treatment protocols.
- To ensure that healthcare is paid for by the correct parties. Medical Scheme members with PMB conditions are treated according to the specified treatments and these have to be covered by their medical scheme, even if the patients were treated at a State Hospital.

Which PMB conditions are covered by the Scheme?

Emergency Medical Conditions

An emergency medical condition means the sudden and, at the time, unexpected onset of a health condition that requires immediate medical treatment and/or an operation. If the treatment is not available, the emergency could result in weakened bodily functions, serious and lasting damage to organs, limbs or other body parts, or even death.

In an emergency it is not always possible to diagnose the condition before admitting the patient for treatment. However, if doctors suspect that the patient is suffering from a condition covered by PMBs, the medical scheme has to approve treatment. Schemes may request that the diagnosis be confirmed with supporting evidence within a reasonable period of time.

Diagnostic Treatment Pairs (270 medical conditions)

The Regulations to the Medical Schemes Act provide a long list of conditions identified as PMBs. The list is in the form of Diagnosis and Treatment Pairs (DTP). A DTP links a specific diagnosis to a treatment and therefore broadly indicates how each of the approximately 270 PMB conditions should be treated.

Here is an example of a DTP as it appears in the Medical Schemes Act:

Code	Diagnosis	Treatment
109A	Vertebral dislocation/ fracture, open or closed with injury to spinal cord	Repair/reconstruction; medical management; in-patient rehabilitation up to two months

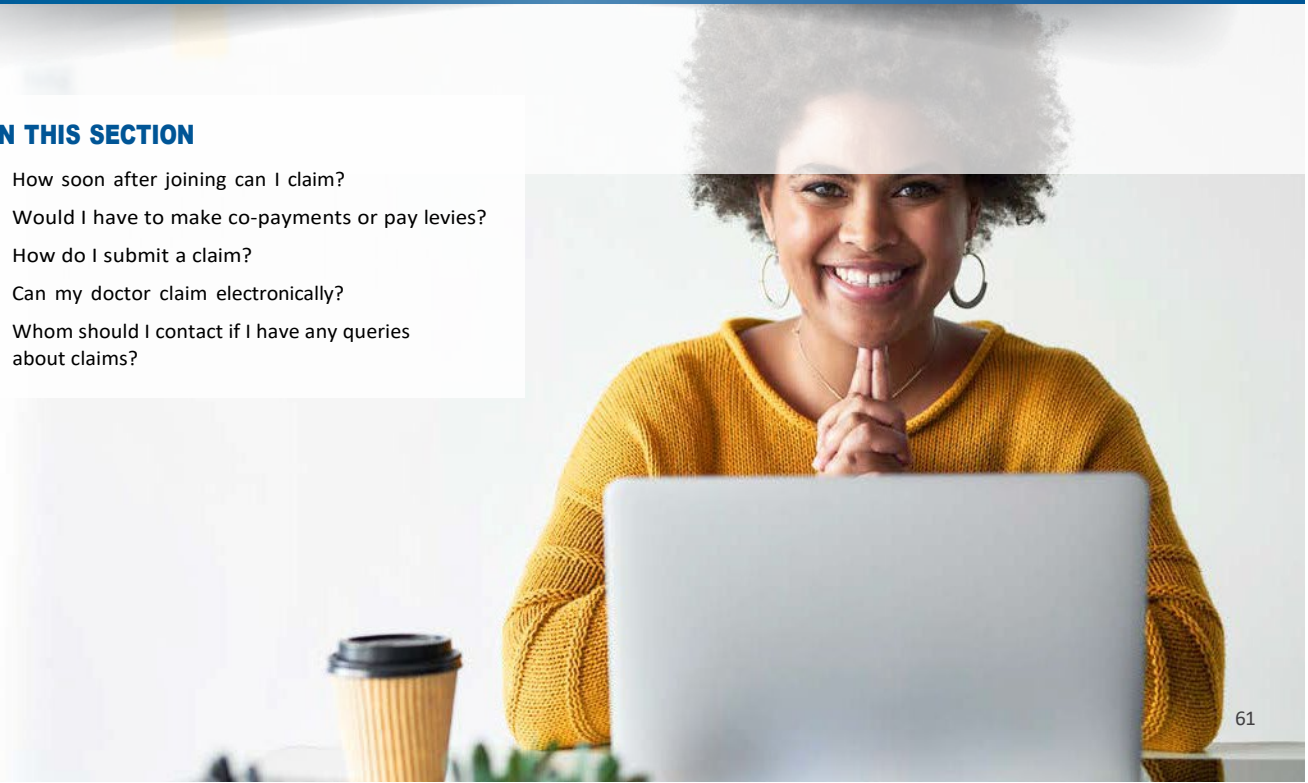
If your PMB condition is not an emergency or a chronic condition, but is an acute PMB condition as diagnosed by your doctor, you will be covered, subject to Scheme Rules and the PMB limits. If you are unsure of whether your diagnosed acute condition is covered as a PMB you can contact the Scheme on **0860 101 103** to clarify this. The agent will require the ICD-10 code to determine whether the condition is an acute PMB condition.

Designated Service Providers for PMBs – Hospital plus Network Plan	
General Practitioners	Momentum/CareCross Network doctors
Chronic Medicine	Medicines on Network formulary only; other services not covered by Network pharmacies.
Other Primary Care Services	Momentum/CareCross Network doctors
Other out-of-hospital services	Network providers only (radiology and pathology services covered according to approved Network tariff list only)

12 | How to Claim

IN THIS SECTION

- How soon after joining can I claim?
- Would I have to make co-payments or pay levies?
- How do I submit a claim?
- Can my doctor claim electronically?
- Whom should I contact if I have any queries about claims?



How soon after joining can I claim?

Members and their beneficiaries are entitled to benefits from the first day of joining Horizon Medical Scheme (except where waiting periods are applicable – see page 63). Members are advised to phone the Horizon Call Centre at **0860 101 103** before proceeding with treatment if there is any doubt whether such treatment qualifies for benefits.

Would I have to make co-payments or pay levies?

Members are generally not required to pay any co-payments for treatment at the point of service. In the event that the provider charges more than the Medical Scheme Rate (MSR) or where no day-to-day cover is available on the Plan, the member is liable for the account.

Please bear in mind that some doctors charge more than others - it will therefore be in everyone's best interest that you negotiate with your service providers to reduce costs.

How do I submit a claim?

Members on the Hospital plus Network Plan need not submit any claims for network providers. In the case of out-of-network claims, members have to submit such claims to CareCross for reimbursement.

Other members must please ensure that all accounts and claims have the following information:

- the name of the Scheme;
- your membership number;
- your surname and initials;
- the patient's first name/s as it appears on your membership card;
- the name and practice number of the service provider (e.g. doctor or pharmacy);
- a receipt, if you have already paid the account (please state clearly on the account that it has been paid);
- a fully specified account; and
- an ICD10 code or tariff code.

All specialists and medical auxiliaries (physiotherapy, etc.) accounts must be submitted to the Administrator.

Claims can be submitted as follows:

Post: Horizon Medical Scheme, P O Box 74, Vereeniging, 1930, South Africa

Email: claims@medscheme.co.za

Note:

Submit your claim as soon as possible after receiving the account. If it is not submitted by the last day of the fourth month following the date of service, it will not be paid.

Claims that are submitted as scanned documents will only be processed if legible.

Can my doctor claim electronically?

EDI, Electronic Data Interchange, is a system whereby the doctor claims electronically from the Scheme. If your doctor or provider claims by EDI you do not have to submit a claim at all – the Administrator will automatically process the EDI claim.

Whom should I contact if I have any queries about claims?

For claims enquiries please call **0860 101 103**.

FAQ
Jargon Guide

Who can be a member of the Scheme?

All employees qualify to become members once permanently employed. Employees who are required, in terms of their conditions of employment, to be a member of the Scheme, are not allowed to terminate their membership while they are still an employee of the participating employer.

To join the medical scheme, the Horizon Medical Scheme application form must be completed and returned to your respective Salaries, Payroll or HR Department within 30 days of your employment date. If a member joins the Scheme before or on the 15th of a month, full contributions will be payable for that month. If a member joins the Scheme after the 15th of a month, contributions will only be payable from the following month onwards.

Active members who resign or are dismissed from the participating employer can no longer belong to the Horizon Medical Scheme.

Active members who retire, or who leave employment due to ill-health or disability, may remain members of the Scheme.

Who is regarded as a dependant of the member?

The Rules of the Scheme allow dependants of principal members (employees or pensioners) to be on the Scheme. The Rules of the Scheme also allow dependants of deceased principal members (employees or pensioners) to remain on the Scheme. This includes the spouse as well as the children.

The following may be registered as beneficiaries if they do not belong to any other medical aid scheme:

- a member's spouse or life partner;
- a member's child who is under the age of 21;
- children over 21 but under 26 who are full-time or part-time students; and
- any other member of the member's immediate family in respect of whom the member is legally liable for family care and support. The Scheme shall require proof of dependency.

Note: *It is not compulsory for the whole family to register as beneficiaries, but a beneficiary cannot join if the principal member (employee) is not a member of the medical scheme. If the principal member decides not to add family members (beneficiaries) when first joining the Scheme, but does so at a later stage, then the three-month general waiting period with regards to all claims and twelve-month exclusions on pre-existing medical conditions will be applied. It is illegal to belong to more than one medical scheme at a time.*

When a member gets married, or a child is born or adopted, the new beneficiary must be registered within 30 days of the occurrence of the event.

Increased contributions shall be payable for the full month in which the new beneficiary is registered and benefits will be available as from the date of registration. For any other dependants registered, contributions will be payable for the full month in which he/she is registered.

The following may NOT be registered as beneficiaries:

- Nieces and nephews
- Parents-in-law
- Married dependants

If you have any questions about the registration of your dependants, please email: horizonmembership@medscheme.co.za, or call **0860 101 103** / **+27 011 671 6837**.

What do I need to do if my dependants/membership details change?

To register a beneficiary, please advise the respective Payroll, Salaries or HR Department and submit a "Change of Membership Details" form with the necessary documentation. The same process applies to remove a beneficiary. The Scheme requires 30 days' notice of the removal of a beneficiary. When a beneficiary is removed from the Scheme, contributions in respect of that beneficiary will be due for the month in which the beneficiary is removed, irrespective of when the beneficiary's membership is cancelled.

Note: *Beneficiaries who are not registered do not qualify for any benefits.*

How are waiting periods applied?

Each employer group determines which employees are eligible to join the Horizon Medical Scheme. Employees of participating companies that do not require ALL employees to belong to Horizon Medical Scheme will be subject to the following waiting periods, exclusions and/or penalties when joining the Scheme.

Waiting periods will be applied as follows:

Your (or a beneficiary's) circumstances	Will a three-month general waiting period apply?	Will a 12-month condition-specific waiting period apply?	Will Prescribed Minimum Benefits (PMBs) be covered?
If your membership of the Horizon Medical Scheme is compulsory.	No, there will not be a waiting period, provided you apply within 30 days of your employment.	No	Yes
If, for a period of more than 90 days before your application to the Horizon Medical Scheme, you were not a member of a medical scheme.	Yes, a three-month waiting period will apply, including for Prescribed Minimum Benefits (PMBs).	Yes	No
If you have a child.	No, there will not be a waiting period for the child. Remember to register your baby within 30 days of birth for him/her to be covered from date of birth, otherwise the baby will only be covered from the 1st of the following month.	No	Yes
If you experience one of the following life-changing events: - Divorce; - Marriage; - Retrenchment; or - Partner's change of employment, or death.	No, there will not be a waiting period, provided that you apply to join within 30 days of the event taking place.	No	Yes
If you have been a member of a medical scheme for less than 24 months and you apply to the Horizon Medical Scheme within three months of terminating your membership of the previous medical scheme.	It depends. Any unexpired waiting period balance on your previous medical scheme will be applied. You will be entitled to Prescribed Minimum Benefits (PMBs).	Yes	Yes

Your (or a beneficiary's) circumstances	Will a three-month general waiting period apply?	Will a 12-month condition-specific waiting period apply?	Will Prescribed Minimum Benefits (PMBs) be covered?
If you (or a beneficiary) have been a beneficiary of a medical scheme for more than 24 months and you apply to the Horizon Medical Scheme within three months of terminating your membership of the previous medical scheme.	Yes, a three-month waiting period will apply. You will be entitled to Prescribed Minimum Benefits (PMBs).	No	Yes

What is a Late Joiner Penalty (LJP)?

LJPs can be imposed on the main member and dependants if they join after 30 days of employment and are over the age of 35 with no previous cover.

An LJP will be applied to any dependant over the age of 35 who has not been on a medical scheme before.

- If the dependant joins at the same time as the main member (within 30 days from date of employment), no underwriting will apply.
- If the dependant joins after the main member and is over the age of 35, with no previous medical cover, we will impose LJPs and waiting periods.
- Dependants' LJPs are, for example, calculated as follows: A dependant is 65 years and has had 5 years' previous medical aid cover, but was not covered for the last 90 days. Then we take 65 (age) – 35 = 30 (without medical aid cover) – 5 (previous cover) = 25 years without medical aid cover, therefore the LJP will be 75%.

Years without medical cover	Late joiner penalty (LJP) payable
1 – 4 years	5% of contribution
5 – 14 years	25% of contribution
15 – 24 years	50% of contribution
25 years and more	75% of contribution

- On receipt of the member's application form, the administrator will impose LJPs and waiting periods as per the approved Scheme Rules.
- It is important to provide all supporting documents, such as membership certificates of previous medical schemes (indicating the membership end date) to the Scheme as soon as possible, to ensure that LJPs, if applicable, are not calculated incorrectly. Any LJP is only adjusted from the 1st of the next

month after proof of previous membership is received and there will be no refunds or backdating

- If your previous medical aid no longer exists, we will accept an affidavit confirming period of cover, membership number, etc.
- Condition of employment: If a member and his dependants join within 30 days, no waiting periods will apply to the member and his dependants.
- Please take note that LJPs are implemented for life and do not expire.
- Also note that the participating companies do NOT subsidise this late joiner penalty. Member will be responsible for the full LJP amount.

What will happen when my Scheme membership comes to an end?

A member who resigns or is dismissed from the participating employer cannot remain a member of the Scheme. Membership and benefits cease on the last day of employment, but if this is on or before the 15th of the month, the member will not have to pay contributions for that month.

The Salaries, Payroll or HR Department must be advised immediately when an employee resigns. From the date of termination the member and beneficiaries will not be entitled to any further benefits. Any amounts due to the Scheme will be deducted from money owed to the member by the employer.

A member must inform the Scheme within 30 days if any of his or her beneficiaries are no longer members, i.e. if deceased or when the beneficiary gets married, etc.

A beneficiary shall be deemed to have ceased to be eligible as a beneficiary if:

- he or she was a dependent child and attained the age of 21 years, unless the member provides satisfactory evidence that this child is still dependent on the member; or
- at the end of the benefit year he or she was a parent, including a parent of an adopted child, brother or sister of a member, unless the member provides satisfactory evidence that the member is still liable for family care and support in respect of this beneficiary.

Who manages my medical scheme?

The Horizon Medical Scheme has been designed to address the needs of as many of its current and future members as is possible. The Scheme is autonomous and managed by a Board of Trustees. Each participating company has two representatives on the Board – one elected by the employees and one nominated by the company – who serve for a period of five years.

To assist the Trustees in fulfilling their duties, they are assisted by NMG Actuarial & Specialised Consulting who are the Actuaries and Consultants, and Medscheme, who are the Administrators. Momentum/CareCross manages the day-to-day benefits on the Hospital plus Network Plan.

The Administrators' services include the handling of claims and queries, as well as managing the finances of the Scheme.

How do contributions work?

Funds in the Scheme are contributed by both the members and the company. Apart from all non-healthcare administration costs, the contributions are used entirely for the medical expenses of members. Any excess funds (surpluses) of the Scheme at each year-end (of contributions over expenditure) are retained by the Scheme and form part of a reserve account. It is a requirement by law that all medical schemes must have a reserve account equal to at least 25% of annual gross contributions to protect members against any unforeseen increases in claims and future price increases.

Because the money in the Scheme is mainly used to pay benefits to members, it is in the interest of all members to be vigilant in the control of expenses and to report any abuse of the Scheme. The better the costs are controlled, the better the benefits that can be offered, and the lower the annual increases in your contributions.

When does the benefit year start?

The benefit year runs from 1 January to 31 December each year. Annual limits are based on the benefit year from January to December and will be apportioned according to the period of membership, in relation to the Medical Scheme benefit year. This means, for example, that if a member joins the Scheme on 1 July, he or she will only get six-twelfths (half) of the annual benefits, since he or she will only be a member for six months of that benefit year.

What services and procedures are NOT covered by the Scheme?

All medical schemes have to make sure that the members' money is used for genuine medical reasons and therefore there are rules pertaining to exclusions and benefits. Below is an extract from our Scheme's Rules, but if you are in any doubt about your own circumstances, you can contact the Horizon Medical Scheme Call Centre at **0860 101 103** for clarification or alternatively email horizon@medscheme.co.za.

Exclusions

In so far as they are not prescribed PMBs, the following are some of the exclusions:

- For the Hospital plus Network Plan, any non-Momentum/CareCross-generated claim apart from those covered under 'Out of Area'.
- Travel expenses.
- Cosmetic treatment, operations, procedures and applicators, toilet preparations, etc.
- Reports, examinations and tests for insurance policies, employment, visas, pilot and driving licenses or legal reasons.
- Injuries arising from or appliances for professional sport, bungee or parachute jumps.
- Accommodation in an old age home, general care institutions, spas, health or holiday resorts.
- Treatment for obesity.
- Treatment and operations of choice and non-essential medical items.
- Acupuncture, biokinetics, chiropractors, herbalists, naturopaths and homeopaths.
- Ptosis.
- Injuries sustained during participation in strikes, illegal picketing, riots or physical struggle.
- Nutritional supplements, tonics, stimulants, vitamins, minerals.
- Contraceptives used for skin conditions.
- Stimulant laxatives.
- Treatments for sexual dysfunction.
- A medical or surgical procedure, treatment, cause of treatment, equipment, drug or medicine that is not widely accepted and known to be safe, effective and appropriate for the treatment of an illness or injury by a consensus of professional medical specialists which are recognised as such by the South African medical community.
- If the treatment is under study or investigation in a test period or part of or in a clinical research.
- Services that are regarded as not medically necessary.

For a comprehensive list of exclusions, please call the Horizon Contact Centre on **0860 101 103** or email horizon@medscheme.co.za.

15 | Frequently Asked Questions

IN THIS SECTION

- What is the difference between GPs, specialists and auxiliary service providers?
- What rules apply if I have been involved in a motor car accident?
- How can I claim in terms of the Compensation for Occupational Injuries and Diseases Act?
- What can I do if I have a complaint against my medical scheme?
- What can I do if my benefits run out in the case of a serious illness?
- What if I suspect fraudulent activity against the Scheme?
- How confidential will my information be kept?

What is the difference between GPs, specialists and auxiliary service providers?

A general practitioner (GP) is someone who completed the standard training for a medical doctor.

A specialist is someone who has completed advanced education and clinical training in a specific area of medicine (their specialty area), such as cardiology, neurology, and so on.

Auxiliary services providers are generally not doctors, but trained in a specific field. Examples are audiologists, physiotherapists, dietitians and chiropractors.

What rules apply if I have been involved in a motor vehicle accident?

The Scheme will cover treatment of injuries sustained in line with the Scheme's Rules and your available benefits.

We would like to remind you that a third party, such as the Road Accident Fund (RAF) or another public party, may often be liable for the payment (or part thereof) of the medical expenses members and/or their Scheme incurred as a result of an accident.

In terms of the Horizon member obligations, as set out in Annexure C of the Scheme Rules, your support and co-operation in assisting the Scheme to recover past medical expenses paid on your behalf is imperative. It is only with the assistance of its members that the Scheme is able to recover medical expenses. Members therefore have an obligation to disclose all information relating to a possible third-party claim and to sign all required legal documents.

If you have been involved in any kind of motor vehicle or other accident in which someone else (other than you or your dependant) may have been responsible, or partly responsible, for the accident in which you were injured, you may have an eligible third-party claim.

To help you understand your obligations and to assist with lodging a third-party claim, the Board of Trustees appointed Medscheme Holdings as the Scheme's provider for the recovery of all eligible past medical expenses paid by the Scheme that may be recoverable from a third party.

Contact the Scheme on **0860 101 103** and ask for assistance with third-party claims so that your call can be transferred to a legal adviser in the Third-Party Claims team. Alternatively, you can contact the team directly on **0800 117 222**.

If you appear to have a valid third-party claim, you will be asked to complete an accident questionnaire. This will help to ensure that you receive accurate advice and that the correct forms are completed. You will also be required to sign a mandatory Horizon member undertaking, agreeing that you will include in your claim, and pay the Scheme back if you receive a settlement from a third party such as the Road Accident Fund (RAF) that includes money that the Scheme paid on your behalf.

Please read clause 3.2 of Annexure C of the Horizon Medical Scheme Rules for the detailed member and Scheme obligations in the event of a potential third-party claim.

How can I claim in terms of the Compensation for Occupational Injuries and Diseases Act?

In certain circumstances, you may not be covered by the Scheme for injuries resulting from an accident sustained in the workplace, as these medical expenses can be claimed from a third party. Claims in terms of the Compensation for Occupational Injuries and Diseases Act are not covered by the Scheme.

Forms for the Compensation for Occupational Injuries and Diseases Act should be completed by the treating hospital or medical practitioner and the relevant employer, and then submitted to the Commissioner of Occupational Injuries and Diseases.

The Scheme will not pay any benefits until the Commissioner rules that the injury does not fall under the Compensation for Occupational Injuries and Diseases Act.

What can I do if I have a complaint against my medical scheme?

The Registrar of Medical Schemes is the regulator of the medical scheme industry. Any member or any person who is aggrieved with the conduct of a medical scheme, health professionals, private hospital or nurse, can submit a complaint to the Registrar's Office. However, the Registrar requires that members FIRST try to resolve any complaints with their medical scheme, before they contact the Registrar.

Once you have tried and failed to resolve a complaint with the Scheme, you may contact the Registrar to make a complaint. Complaints can be submitted through fax, email or in person at the Registrar's office. The Registrar's contact details are as follows:

Council for Medical Schemes

Block A Eco Glades 2 Office Park, 420 Witch-Hazel Street,
Ecopark, Centurion, 0157.

Website address: www.medicalschemes.com – (on the landing page click on 'Consumer Assistance' in the menu bar, and then on 'The Complaints Procedure' for further information.)

Customer Care Share call no.: 0861 123 267
Complaints fax no.: 0866 732 466
Email address: complaints@medicalschemes.com

- The Registrar's Office will send a written acknowledgement of a complaint within 3 working days of its receipt, providing the name, reference number and contact details of the person who will be dealing with the complaint.
- In terms of Section 47 of the Medical Schemes Act, a written complaint received in relation to any matter provided for in this Act will be referred to the medical scheme. The medical scheme is obliged to provide a written response to the Registrar's Office within 30 days.

- The Registrar's Office shall within 4 days of receiving the complaint from the administrator, analyse the complaint and refer a complaint to the medical scheme for comments.
- Upon receipt of the response from the medical scheme, the Registrar's Office will analyse the response in order to make a decision of ruling. Decisions / rulings will be made within 120 days of the date of referral of a complaint and communicated to the parties.

The Registrar's Ruling and appeal to Council

- Section 49 of the Act makes provision for any party who is aggrieved with the decision of the Registrar to appeal such a decision. This appeal is at no cost to either of the parties.
- An appeal must be lodged within 30 days of the date of the decision. The operation of the decision shall be suspended pending review of the matter by the Council's Appeals Committee.
- The secretariat of the Appeals Committee will inform all parties involved of the date and time of the hearing. This notice should be provided no less than 14 days before the date of the hearing.
- The parties may appear before the Committee and tender evidence or submit written arguments or explanations in person or through a representative.
- The Appeals Committee may after the hearing confirm or vary the decision concerned or rescind it and give another decision as they see fit.

The Section 50 Appeals process

- Any party that is aggrieved with the decision of the Appeals Committee may appeal to the Appeal Board.

- The aggrieved party has 60 days within which to appeal the decision and must submit written arguments or explanation of the grounds of his or her appeal.
- The Appeal Board shall determine the date, time and venue for the hearing and all parties will be notified in writing.
- The Appeal Board shall be heard in public unless the chairperson decides otherwise.
- The Appeal Board shall have the powers which the High Court has to summon witnesses, to cause an oath or affirmation to be administered by them, to examine them, and to call for the production of books, documents and objects.
- The decisions of the Appeal Board are in writing and a copy thereof shall be furnished to parties. A prescribed fee of R2 000 is payable for Section 50 Appeals.

What can I do if my benefits run out in the case of a serious illness?

If you find yourself or a beneficiary suffering from a serious illness that results in medical expenses that exceed the annual limits, you may apply in writing to the Board of Trustees for ex-gratia assistance.

Each request will be considered and everything possible will be done to assist you. In order to apply you should:

- obtain the application form from Medscheme
- ask your doctor to assist you in completing the form
- submit the completed form to Medscheme

Post or email your form to:
Horizon Medical Scheme
Attention: Ex-gratia Department
PO Box 74, Vereeniging, 1930, South Africa

or horizon@medscheme.co.za

This is your Medical Scheme and the onus is on you to investigate whether you qualify for this additional assistance. However, it should be recognised that existing members will in effect fund additional requests, so only serious cases should be put forward.

What if I suspect fraudulent activity against the Scheme?

Unnecessary and fraudulent expenses are funded by you, the member, through increased contributions. You can contribute towards the fight against fraud by carefully and regularly checking your claims transactions and making sure that you have not been involved in a fraud scam without your knowledge.

Examples of fraud scams discovered by the Scheme have been:

- A service provider putting in a claim for services that were never rendered.
- A service provider performing a procedure or giving treatment that is excluded by the Scheme rules, and then charging for it under a different code.
- A pharmacy providing generic medicine, but charging for the more expensive brand name.
- A pharmacy billing for medication but issuing groceries.

- A service provider billing for the same procedure twice (duplicate billing).
- A service provider billing more hours than actually consulted.
- A facility billing an ICU ward, when the patient was in a general ward.

If you suspect that a service provider, colleague or any other person or organisation may be engaged in fraudulent activities against your Scheme, please contact the Fraud Hotline on 0800 11 28 11. This hotline is managed by an independent company, Whistleblowers, and you can choose to remain anonymous. You can also email information@whistleblowing.co.za or send a Whatsapp to 031 308 4664 to report your suspicions.

How confidential will my information be kept?

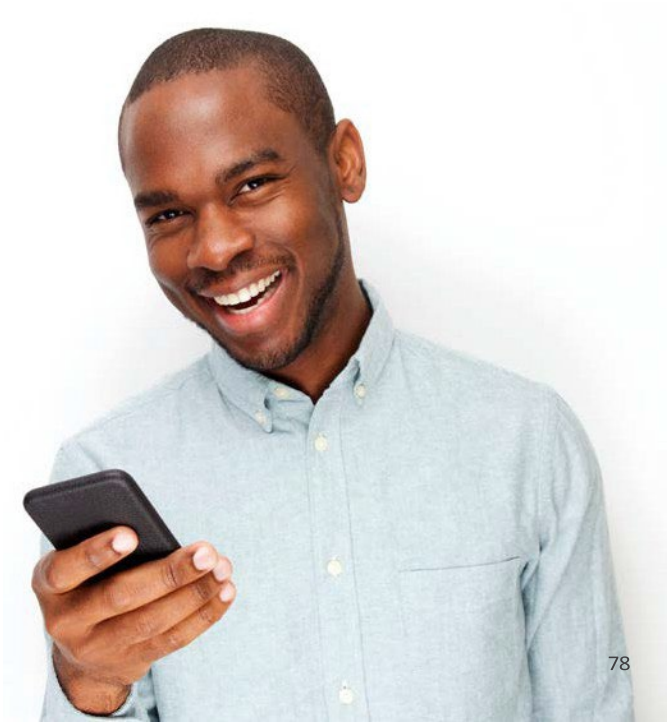
The Scheme would like to remind members of our confidentiality policy, which prevents unauthorised persons from obtaining and changing members' information.

Please note that the Scheme will only process changes to member details that have been furnished to the Scheme by the member or his or her representative.

To ensure that your information is secure and that unauthorised callers cannot change your records, we will authenticate the identity of callers, by asking a few questions to verify your identity.

If you are disabled, aged or have a personal assistant (PA) who looks after your affairs, you can make special provision to allow that person to access your information. All that is required is a completed Letter of Authority, giving your representative (PA or family member, etc.) the authority to contact us on your behalf. Simply contact us (see contact details at the front of the guide) to send you a Letter of Authority form to complete.

As your protection is our priority, should any of the above details not correspond with what we have on our system, no information will be provided to the caller.



Jargon Guide

Beneficiary	Each person registered on the Scheme.
Benefit year	The period for which benefits and allocations apply, in this case 1 January to 31 December. Should you join the Scheme during a benefit year, you are only entitled to a month appropriate portion of the benefits and limits specified for that year.
Day-to-Day Benefits	These cover smaller medical expenses that occur more frequently, e.g. GP or dentist consultations and prescribed medicines. Treatment is usually received out of hospital or at the outpatient facility of a hospital. A visit to a hospital's Emergency Rooms (ER) would also be covered from this benefit, unless the patient was admitted to the hospital itself for further treatment.
Designated Service Provider (DSP)	Appointed by the Scheme to provide certain specified medical services to members, e.g. a group of service providers or a state facility.
Medicine Exclusion List (MEL)	The list of medicines used by the Scheme, to protect the Acute Medicine Benefits through the exclusion of this list from payment for a number of reasons.
Medicine Price List (MPL)	MPL is a reference pricing system that uses a benchmark or reference price for generically similar products. The fundamental principle of any reference pricing system is that it does not restrict a member's choice of medicines, but instead limits the amount that will be paid.
Member family	The benefit is allocated to the principal member and his family and is the equivalent of one benefit limit per family.
Medical Scheme Rate (MSR)	The Scheme Tariff/Medical Scheme Rate as approved by the Board of Trustees unless an alternative tariff has been negotiated with specific providers, which will not be less than the fee charged by the State.
Prescribed Minimum Benefits (PMBs)	The unlimited benefits to which all members are entitled for treatment related to the conditions specified in the Medical Schemes Act, provided this treatment is obtained at a DSP and subject to the Scheme's treatment protocols and formularies.
Personal Medical Savings Account (PMSA)	A savings account to accumulate funds for future approved medical needs (**Hospital plus Savings Plan** only).
Single Exit Price (SEP)	Price of medicine as determined by the State, and the manufacturer, at which it is marketed and purchased by the pharmacist.
